MISSION STATEMENT:

Faculty of Economics & Business Zagreb (FEB) is committed to research and education of highly qualified experts, who will successfully and socially responsible respond to contemporary global business and social challenges, hence raising the quality of higher education and science in national and regional environment.

VISION:

The vision of FEB Zagreb is to distinguish itself as the elite national higher education institution, with a recognizable image of a market-oriented and socially responsible organization that provides top quality education and research.

FACULTY MOTTO:

Tradition and innovations in education and research – the path to future.

CORE VALUES:

People first
Academic excellence
Integrity and honesty
Community and social responsibilities

PREFACE

In 2021 University of Zagreb, Faculty of Economics and Business, has an active research culture, pushing the theoretical frontiers of knowledge and conducts applied research with real-world impacts. As global research advances, enhancing the regional applicability of relevant theories, FEB aims to integrate its individual research streams into a coherent body of research.

Our imperative is to be even more active and strategically agile in responding to the requests and the networking opportunities that lie ahead. Scientific research and teaching activities are at the core of *FEB's activities, as stated in its mission* ["...committed to the research and education of highly qualified experts..."] and *vision* ["...that provides top-quality education and research..."]. In addition to education and scientific research, FEB encourages innovation and knowledge that could influence the economic and social development in Croatia and the surrounding region. Thus, the research strategy focuses on the continuous improvement of research performance, identity, and culture, in order to position FEB as a recognised international research force that is both academically excellent and positively impactful across a broader range of stakeholders, including students, practitioners, and policymakers. This should enhance the welfare of business and society.

Thus, FEB aims to:

- ✓ Stimulate its faculty to deliver competitive research outputs by providing adequate access to resources (access to publications, databases, and funding) and knowledge (collaboration with leading scholars).
- ✓ Facilitate research excellence through FEB conferences and journals, placing FEB on the international research map.
- ✓ Achieve research excellence in terms of quantity (number of relevant publications), quality (the quality of the journals in which publications are published), and impact. (The knowledge produced by our research contributes to advantages to the society, culture, and environment of Croatia and the region.)
- ✓ Demonstrate research relevance by exposing stakeholders to the implications of FEB's faculty research results.
- ✓ Develop cross-departmental and cross-generational cooperation to facilitate boundary-spanning research, by organising individual researchers into groups.

Alongside research and social responsibility, knowledge plays a remarkable role in generating FEB's social enrichment. Knowledge is of noticeable relevance to decision-making, scientific research, and teaching activities, and it has the power to unite people through insight, reason, wisdom, and expertise. These individuals can then build it, shift it, and share it. At FEB, we believe that, in a research context, all knowledge arises from collaborative human activities. Because meaningful interactions with a wide range of connections to theory and practice are central to the realization of FEB's mission and the delivery of its strategic aims, contracts and close cooperation agreements with 492 companies and institutions have led to a variety of formal arrangements. These include co-authorship, data access agreements, observation of corporate practice, the commissioning and funding of research, and collaboration via surveys, questionnaires, and interviews.

The directing of new needed skills research demands fostering increased capabilities, skills, and competencies, adjusted to new technological challenges specifically in FoodTech, FinTech, Industry 4.0, and CleanTech. This is often followed by further research and the realisation of new knowledge, evidencing our research output. FEB's current aim is to increase its amount of externally funded research and streamline its delivery in harmony with the research strategy, SMART specialization strategy, and national government priorities. This particular mix of initiatives concentrates on EC funded research and engaging firms is harmonised to support FEB's priorities.

By entrusting students to apply what they learn and create new forms of knowledge and partnership, we have a positive and transformative effect on business and management practice. FEB encapsulated mission and vision statements. Any research we run aims to advance theory and practice and have robust, practical implications. Through collaboration and partnerships, we aim to provide synergies and results that help us fulfil a mission focused on business and the needs of interchange between FEB and corporate sectors. These include a demand for creativity, international effectiveness, and responsible leadership.

Professor Marina Dabić & Jurica Pavičić, Dean

INTELLECTUAL CONTRIBUTIONS, IMPACT, AND ALIGNMENT WITH A MISSION: RESEARCH, ENGAGEMENT, DEVELOPMENT, AND INNOVATION IN PROMOTING EXCELLENCE

The University of Zagreb, Faculty of Economics and Business (FEB) is home to Croatia's largest, oldest, and most influential school, which serves as a role representative for a responsive and adaptable business school, holding prestigious AACSB, EFMD, and EQUIS accreditations. In one hundred-one years of history, FEB increased the successful development of faculty, academic aptitude, and intellectual contribution, continuously building international profile and reputation. The University of Zagreb, Faculty of Economics and Business, has held the role of the national market leader in all of its activities. Thus, FEB's mission focuses on engaged scholarship, creativity, and efficacy in making our research relevant to multiple stakeholder audiences.

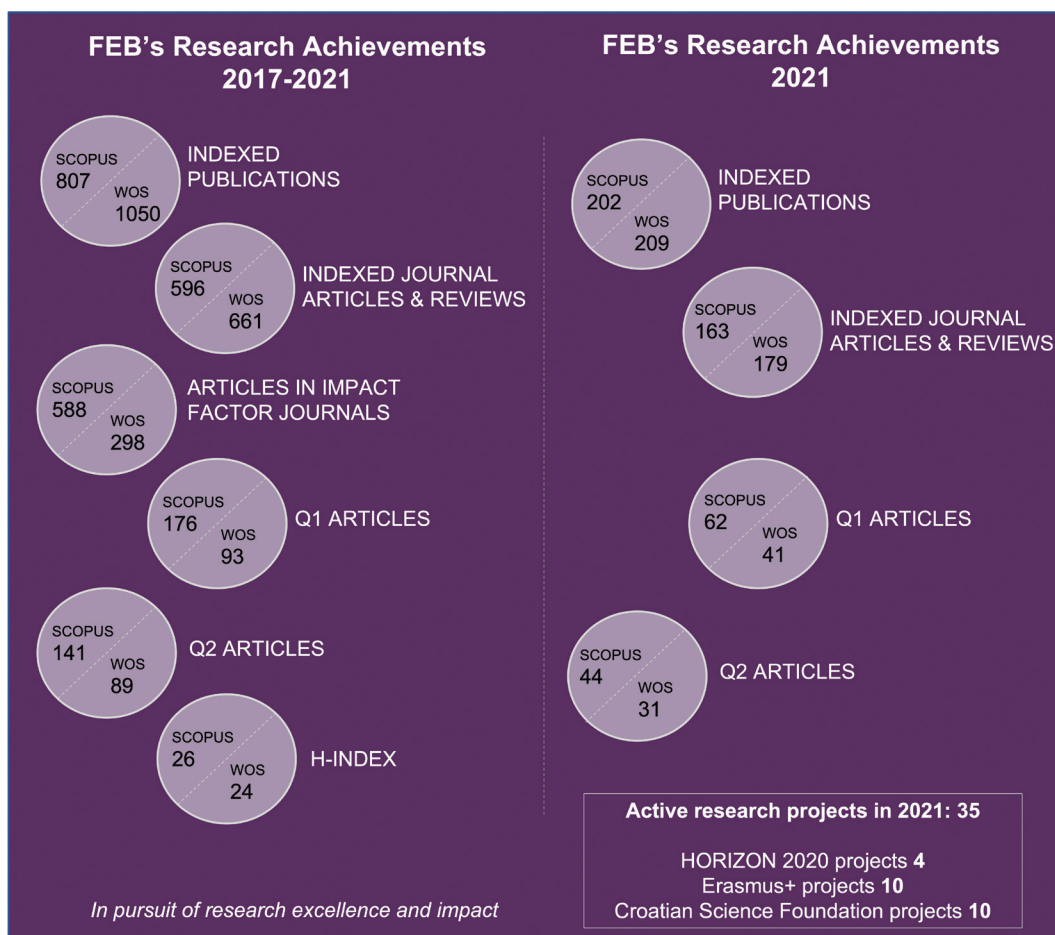

The content of Research Output for 2021 covers the selected bibliographies and listings for various teachers' academic activities in 2021, following the established methodology of previous issues of Research Output publications. Special emphasis is placed on the activities organized by FEB, such as publishing monographs and journals, hosting conferences, and monitoring and issuing theses. According to ORCID, CROSBI, WoS, and Scopus, researchers' profiles aim to raise awareness concerning personal and institutional visibility in the academic environment at national and international levels. Furthermore, FEB encourages its researchers to increase impact, improve the quality of their publications by addressing many of the challenges facing contemporary society and focusing on journals' scientific reputations and rankings.

The data sources presented here are Croatian Scientific Bibliography CROSBI, Academic Journal Guide 2021, FEB Library catalogue, FEB Official Web-site, Journal Citation Reports, REPEFZG Digital Repository, Scopus, Scimago Journal & Country Rank, Web of Science.

An insight into the top-quality research output in the 2017-2021 period and just 2021 is shown in Figure 1 as an introduction to the detailed statistics and bibliometric data interpretation.

Figure 1 shows FEB's significant improvements in quantity and especially the quality of research outcomes and its impact in 2021 when FEB's core faculty members have published 202 papers indexed in Scopus and 205 papers indexed in WOS. From 2017 until 2021, FEB's core faculty members published 805 papers indexed in Scopus and 1050 papers in WOS.

Thus, FEB's management continually cultivates strong research culture among its faculty members, which has substantially enhanced over the years. The highest priorities are research profiles in terms of engagement, innovation, performance, impact, ERS, and culture to advance economics, business theory, and practice. The faculty's scientific activity is also embodied in the number of published books, edited books, educational materials, and book chapters through active participation in scientific and professional conferences and supervising doctoral theses.

Source: Research output 2021

Table 1 reveals FEBS's total research output in 2021 as recorded in the Croatia scientific repository. The evidence presented here implies that our faculty is impacting students across the country through textbook publication and significantly impacting other academic researchers by publishing valuable peer-reviewed journal articles.

Table 1. Total research output in 2021

Impact of FEB intellectual contributions can be evaluated through citations and h-index. FEB strives to identify as many citations of its faculty members' published works as possible to provide a comprehensive assessment of the impact of their publications on the scholarly and professional communities.

According to Web of Science Core Collection databases, 62% of all full-time faculty members have at least five citations of their intellectual contributions, and 76% of current researchers are cited. For the papers published from 2017 to 2021, 70% of faculty members have cited in the WoS Core Collection, and 47% have at least five citations during the same period.

In the 2017-2021 period, the indexed papers were cited 3435 times in Scopus, and 3281 times in Web of Science. Complete bibliometric overview of FEB's research output in observed period is presented in the Table 2.

Following figures 2 and 3 offer a more detailed presentation of FEB's intellectual contributions in period 2017-2021 according to journal ranking quartiles and total number of papers - selected document types based on Scopus.

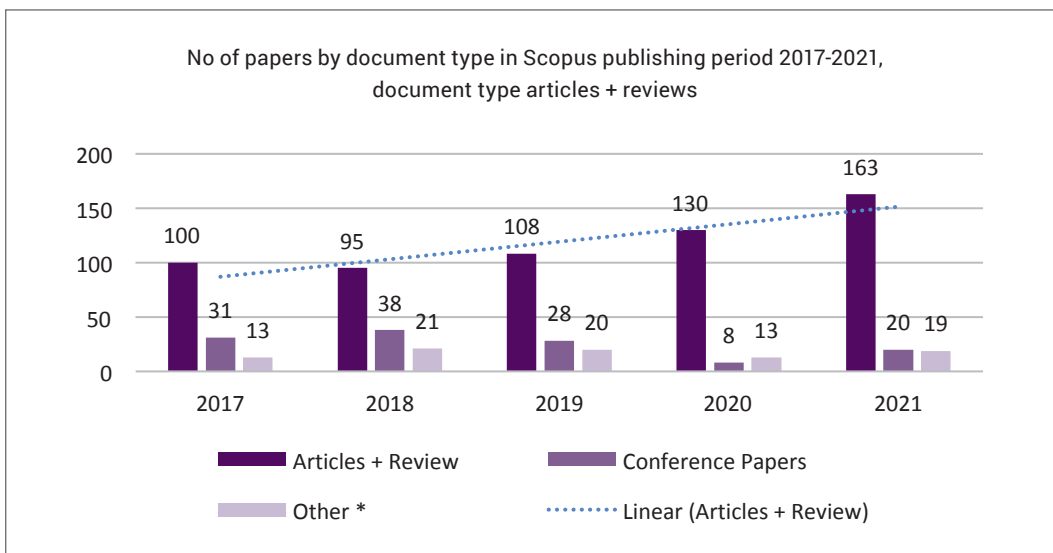

Figure 2. Scopus - Total number of Scopus articles by publishing year and quartiles

Source: Scopus and SCImago Journal Rank. Number of papers by quartiles in years (based on SJR 2020 for all papers). Document type: article + review. Early Access in 2021 included.

Despite the expanded focus on peer-reviewed journals, FEB maintains many publications in professional journals to disseminate its research results among practitioners. It is a part of the practice-oriented research initiative and enhances the findings' impact shared through practitioner outlets. Moreover, FEB requires researchers to produce at least one intellectual contribution in Croatian within five years to boost the language.

FEB has well-established practices for evaluating and monitoring the agreed faculty performance targets. The national CROSBI registers are updated and a new interface provides extensive and sufficient information for the analysis. FEB provides its faculty with sufficient support for meeting its expectations on all mission-related activities. The faculty's intellectual capital is clustered into mission-focused departments and subject cluster groups to maximize impact.

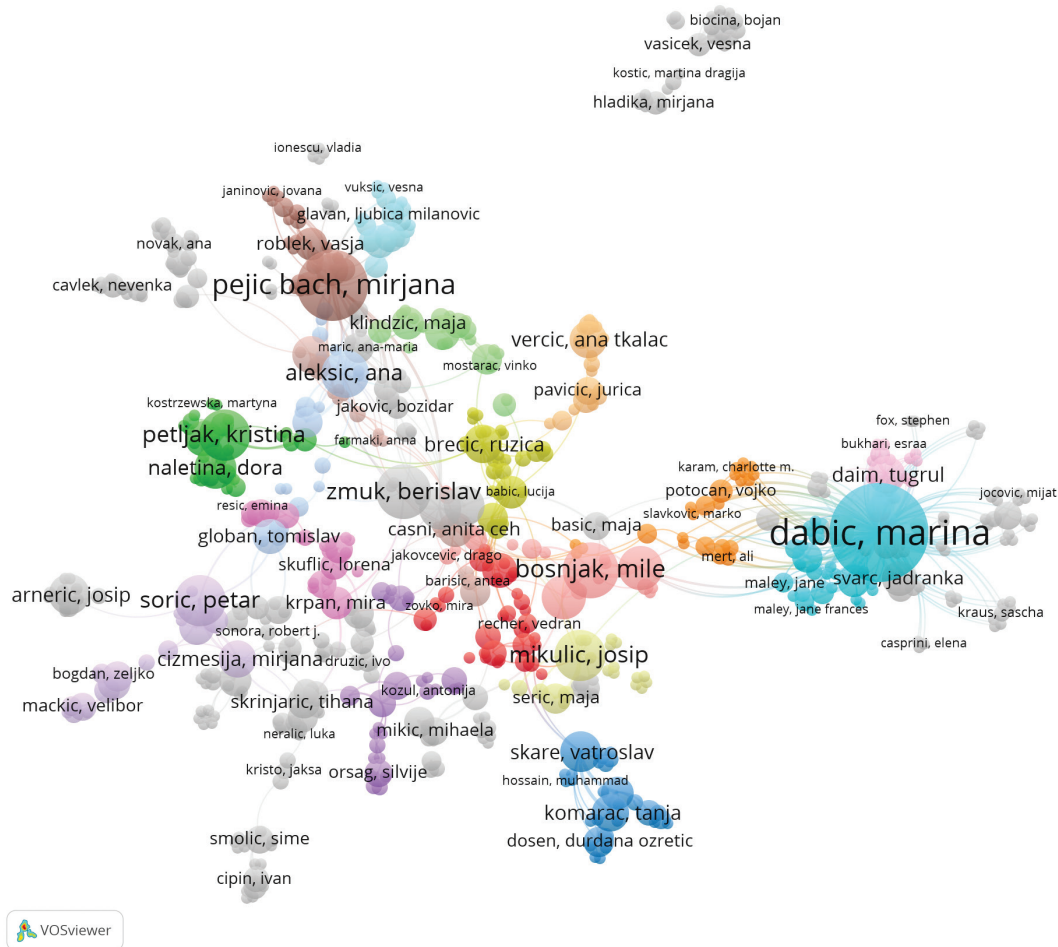

Figure 6. Authors keywords 2017-2021

Source: VOSviewer based on data extracted from Web of Science. Publishing period 2017-2021

Figure 6 shows the most used keywords among FEB's publications in the period of 5 years, in the articles indexed in Web of Science. Keywords that occurred at least five times were shown on the map. FEB's scientists mostly studied the situation in the Republic of Croatia related to different scientific fields, such as management, finances, marketing, tourism, international economics, etc. Blue cluster deals with topics from the tourism field, more specifically, satisfaction, hospitality, and customer perception. The light blue cluster emphasizes behaviour connected to children, young adults, and students. The green cluster shows that FEB's authors explored the situation in the Republic of Croatia regarding the political economy, economic growth, consumption, unemployment, and other related topics. From the red cluster, we can conclude that FEB's authors researched different performance activities that are mostly connected to innovation, open innovation, and industry 4.0. The yellow cluster shows the management's impact on productivity, organizational culture, sustainability, efficiency, and competitiveness, among other topics. The purple cluster refers to internal communication, job satisfaction, and commitment. Figure 7 confirms how FEB's authors are moving toward interdisciplinary teaching and research, collaborating with different departments or international partners.

Figure 7. FEB's authors referenced in WOS and their strongest cooperation

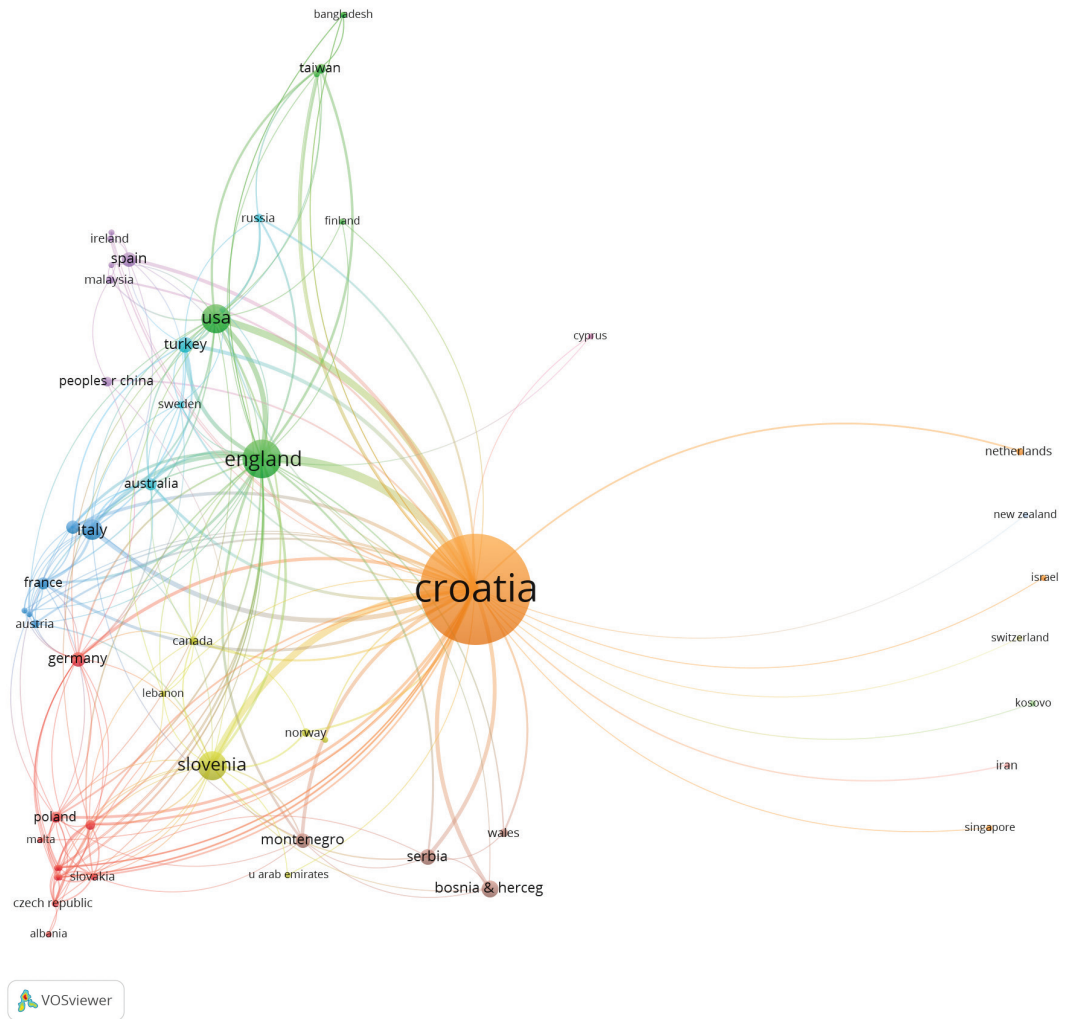

Source: VOSviewer based on data extracted from Web of Science. Publishing period 2017-2021

Researchers from the Faculty of Economics and Business are internationally oriented. Most of their research is published in English. It can be seen from Figure 8 how authors collaborate with partners from England, the USA, Italy, France, Turkey, Germany, and Australia, confirming how researchers from FEB are following world trends and sharing their knowledge and experiences with international partners. By fulfilling their regional role, researchers are also connected to neighbouring countries such as Slovenia, Montenegro, Bosnia, and Herzegovina.

Additionally, FEB's researchers are collaborating with industry partners (for example, Pliva, Podravka, Ina, Ericsson Nikola Tesla, Addiko bank, among many others) and with research institutes (for example, Institute of Social Sciences Ivo Pilar or Institute for Tourism).

Regarding the theoretical topics, FEB has an extensive network of research collaborations with the renowned European universities and research institutes. The core faculty in all departments generate research production making a significant impact and have a track record of grant funding.

FEB'S JOURNAL EDITORIAL ACTIVITIES

As many as 142 faculty members actively participated in the editorial teams conducting the roles of chief editors, guest editors, associate editors, and editorial board members.

Table 9 shows a list of the best-ranked WOS, Scopus, and CABS journals in which FEB's core faculty have served as: area editors, editors, associate editors, guest editors, or editorial board members. (See Table 9).

We have developed a strong portfolio of engagement and impact projects that are consistent with the mission of FEB. Accordingly, we have acquired a substantial portfolio of engagement and impact projects compatible with the social mission of FEB. Research conducted by faculty members is incorporated into new teaching materials in formats such as research-based case studies. Each module has a clear practice focus – motivating students to apply their understanding to real-world concerns and organisations. They are thus developing tangible and tacit skills (from accounting and finance to international business, marketing to strategic thinking) that would ideally result in a rounded way of thinking when joining and engaging with workplaces.

Intellectual contribution in 2021 and in the last five years demonstrates a transformation in the quality of our submitted outputs, with the majority sitting in the Scopus and WOS categories. In addition, in 2017, 'Impact' was included, for the first time, in the assessment as a key measure of research performance. The measure of research performance includes diverse impacts on the economy, society, culture, public policy and services, the environment, and quality of life within Croatia and Europe. We are held most accountable for supplying new knowledge and skills to citizens worldwide who share similar goals, ideas, and social values and thus connect our cities, countries, and geographical regions. Notably, it intensifies FEB's reputation for resilience and flexibility and increases a student-cantered and research-led culture.

Department of Accounting conducts research in scientific and professional disciplines that provides students with an understanding of the broad field of accounting and audit. Accounting as a whole may be divided into several main fields; basics of accounting, financial accounting, managerial accounting, cost accounting, financial statement analysis, audit. All of these major fields, as well as its separated parts are delivered to students as well-rounded courses which provide students the understanding of a wide range of accounting terms and processes covered with examples. Relevant themes about basic accounting principles, the national and international accounting standards, systems and controls, the analysis and audit of financial statements are offered to the students. Department of Accounting deliver lectures on university study programs and professional study programs in Croatian, as well as on undergraduate and graduate study programs in English. Members of the Department participate in many scientific projects in the field of accounting and auditing.

Accounting courses gain knowledge and skills necessary for highly technical jobs in accounting and audit that include all sectors of economy and public administration:

- Finance sector (banks, insurance companies, investment and pension funds)
- Commercial sector (manufacturing, trade and catering service enterprises)
- Audit firms
- Public sector (budget users and non-profit organizations)

Blagus, Monika, PhD

LECTOR

Thevenet, Emilie, MA

In the contemporary business environment foreign language skills are a prerequisite for the success of business people and organisations. Media, especially the Internet, offer a wealth of information available only to people with foreign language skills.

The aim of this department is to develop communication skills in English, French, German, Spanish or Italian necessary for future business and academic careers.

We enhance students' writing and speaking skills through various teaching materials (texts for reading or listening comprehension, video material, websites, music and pictures) dealing with contemporary issues from the field of business and economics. We teach reading and listening strategies as well as structures used in conversation, meetings, negotiations, discussions, presentations etc. Classes are interactive and require regular attendance and full participation.

The courses are tailored to the needs of future business people who need to be informed about economic issues and current events in business and politics. Learning business languages, thus, enhances students' awareness of cultural differences.

Students are encouraged to read business magazines and books in order to be ready for the labour market where confidence in foreign languages contributes to increased competitiveness, mobility and independent performance.

Business English and Business German are compulsory in the first year and elective foreign business language courses are offered in senior years at undergraduate and graduate levels.

Apart from teaching, our department members publish textbooks, dictionaries, papers and translations, participate in international projects, professional associations and conferences. They cooperate with various cultural institutions:

British Council

Goethe-Institut

Alliance Française

L'Istituto italiano di Cultura

The Department of Demography as a separate organizational unit at the Faculty of Economics & Business – Zagreb was founded in 1996. At that time, it was the only department of the sort in Croatia. However, population studies at the Faculty of Economics have a tradition more than half-a-century long.

As a self-standing course, Demography was introduced to the curriculum in 1953 at the Department of Statistics.

Demography is a scientific study of the determinants and consequences of population change. It is particularly relevant for economists because population change bears important implications for economies and policies.

The Department teaches the following courses at different levels of study (undergraduate and graduate): Demography, Labour Economics, Demographic and Social Development, Demographic Methods and Models, Introduction to Demography, and Economic Sociology.

Throughout the history of Faculty of Economics and Business, since 1920, when High School of Trade and Transport was founded, finance studies have had an important place in curricula. In the initial phase of economics studies, finance was taught within "Principles of Political Economy" using the textbook of the same title written by Professor Blaž Lorković in 1889.

The existing **Department of Finance** with segments of monetary finance, public and social finance, international finance and financial institutions and markets, banking and insurance, is directed to providing guidance in handling complicated challenges of globalization. In order to achieve this goal, syllabi of the given disciplines are highly compatible with finance study programmes in the EU and USA.

Memory of those members of our department who left their mark on financial theory and Croatia's politics but are no longer with us - Professor Marijan Hanžeković, first finance minister in independent Croatia, Professor emeritus Ivo Perišin, full member of the Croatian Academy Of Sciences And Arts, Professor Antun Šokman, a long-term vice governor of Croatian National Bank, Professor emeritus Pero Jurković, a former governor of Croatian National Bank and professor Anto Bajo who suddenly passed away on Monday, November 25th, 2019., and was a full professor at the Finance Department and a senior researcher at the Institute of Public Finance in Zagreb, are an inspiration to us all in our teaching and research within the field of finance.

Information and communication technologies nowadays strongly influence the success of a company. This department aims to educate top experts who utilize information technology to enhance the competitiveness of Croatian companies. The department established a major in Managerial Informatics as a result of significant demand for master's students of business administration with solid knowledge of information and communication technologies. Most of the courses are organized using a project-based principle and utilizing cutting-edge software in the fields such as digital transformation, information security, data management, business process management, data science, artificial intelligence, e-business, and others.

Within the postgraduate study program the Information Management, students are presented with the latest scientific, professional, and practical achievements in the application of information technology when managing companies, non-profit, governmental, and public organizations. Candidates acquire knowledge and skills necessary for managing complex projects and businesses by utilizing contemporary technological tools and management methods.

The department organizes Days of Information Technology, intending to show how information and communication technologies can solve business problems and to present the work of the best students. The topic of this event is different every year.

We organize numerous visiting lectures delivered by experts from the most successful Croatian companies – for the students to get a first-hand look at the business application of information and communication technologies in the daily practice of leading Croatian companies.

The aim of the **Department of International Economics** is to provide education to business and economics majors and to conduct research with the purpose of deeper understanding of contemporary globalisation processes and regional integration, based on theory, analysis and politics of international trade and finance and contemporary forms of international business. We emphasize developmental problems of small open economies in the environment of trade and financial liberalisation and international integration and stimulate analytical and research interest in the field of international economics and business.

The department's primary concern is courses that provide knowledge and skills necessary for the analysis of market tendencies and risk management in international exchange of goods and services; managerial, commercial and other skills necessary for independent work and decision-making on the demanding globalised market.

Pecotić Kaufman, Jasminka, PhD

ASSOCIATE PROFESSOR

Dumančić, Kosjenka, PhD

ASSISTANT PROFESSOR

Babić, Marko, PhD; Šafranko, Zvonimir, PhD; Tot, Ivan, PhD; Vuletić, Dominik, PhD

POSTDOCTORAL RESEARCHER

Poljanec, Kristijan, PhD

Lecturers at the Department of Law teach various obligatory and elective courses at the undergraduate, graduate and postgraduate level at the University of Zagreb, Faculty of Economics and Business. Several of these courses are available in English language within Bachelor Degree in Business Programme (BDiB). Department of Law also offers a Master program in “Legal and Economic Framework of Business in the European union”.

Department of Law is especially proud of its active cooperation with the European Law Institute (ELI). Among the results of this cooperation, two successful international scientific conferences should be highlighted: Zagreb International Conference on the Law of Obligations (12-13 December 2019) and 4th International Conference on European Company Law and Corporate Governance (26-27 November 2020).

Department of Law is also actively cooperating with other international scientific associations, such as the Academic Society for Competition Law (ASCOLA).

Following an initiative from Professor Kosjenka Dumančić, the Institute of Euro-Asian Studies (ZEI) was established at the Faculty of Economics and Business in 2020.

Members of the Department of Law are also actively engaged in different international projects as the project team members. Three recent projects should be highlighted: ‘EUSolis – Solidary EU for inclusive society’ Jean Monnet Action (Professor Kosjenka Dumančić), ‘COLECO Erasmus+ Project: Higher education curricula development on the Collaborative Economy in Europe’ (Professor Kosjenka Dumančić) and the ELI Project ‘Corporate Sustainability, Financial Accounting and Share Capital’ (Professor Hana Horak).

Department of Macroeconomics and Economic Development is the first, oldest and the largest department among Croatian faculties of economics. Academician Mijo Mirković, founder of the Faculty, is also a founder of this department.

The department carries out study programme in Economics. Contemporary curriculum economics majors – future experts in modelling and analysis of complex economic systems, e.g. analysts and company planners, experts in finance, planners and economic policy experts for specific economic fields and the whole economy, experts in international trade, international finance and diplomacy, public sector experts (education, health care, statistics and high school teachers of economics.)

Study of Macroeconomics is designed for students interested in scientific study of economics, its 5-year programme is significantly different from study programme in Business Administration.

Economic analysis and development studies are designed to meet growing needs of numerous companies and institutions for highly qualified economic development analysts, with the emphasis on the economic development of Croatia. Curriculum for the first two years is identical to Business Administration curriculum, i.e. students choose their major in the third year of studies.

Two fundamental courses of the department – Macroeconomics and Croatian Economy – are obligatory courses for both Business Administration and Economics majors. They provide the students with relevant facts on research results in the field of theory and its application in Croatia's economic development. This department also offers courses 13 other courses and organizes 3 postgraduate studies.

FULL PROFESSOR TENURED

Kolaković, Marko, PhD; Orsag, Silvijs, PhD

FULL PROFESSOR

Dedi, Lidija, PhD; Miloš Sprčić, Danijela, PhD

ASSOCIATE PROFESSOR

Labaš, Davor, PhD; Mikić, Mihaela, PhD; Sopta Ćorić, Martina, PhD; Zoričić, Davor, PhD

ASSISTANT PROFESSOR

Dolinar, Denis, PhD; Turuk, Mladen, PhD

POSTDOCTORAL ASSISTANT & RESEARCHER

Pecina, Ena, PhD; Sabol, Andrija, PhD

TEACHING & RESEARCH ASSISTANT

Horvatinović, Tin, PhD; Kaštelan, Uršula, MA; Lovretin Golubić, Zrinka, MA; Orlović, Zrinka, MA; Turčić, Ivan, MA

This department conducts research and provides education broad fields of study, Corporate Finance and Investment Analysis to Entrepreneurship.

The course of Corporate finance is taught in the second year as an obligatory course, Investment Analysis is taught as an obligatory course in the fourth year, and Entrepreneurship is taught as obligatory course in the fourth year.

The department also created a graduate study programme in Analysis and Business Planning. The department offers a postgraduate study programme in Financial Analysis, Strategic Entrepreneurship and Controllershship.

Mission of the department is not only to help the students understand the economic system as a whole and different segments of company's finance system, but also to provide them with a solid and diverse basis for management and decision making.

The Department of Mathematics has 11 members. Most of them have degrees in mathematics, others are economists. Therefore, most research conducted by this department involves quantitative methods in economics, operational research, financial mathematics, econometrics. Department members take part in projects of the home faculty and Faculty of Natural Sciences.

This department offers Mathematics course. It is an obligatory course for all first year students. The department also offers courses in Mathematics for Economists, Econometrics, Financial Mathematics, Financial Modelling, Mathematical Economics, Linear Programming, Nonlinear programming, Operational Research, Game theory, Numerical Methods in Economics and, in cooperation with the Department of Statistics, a course in Quantitative Methods for Business Administration.

We also offer a postgraduate specialist study programme in Operational Research which is led by Professor Zrinka Lukač. Within this programme students study quantitative methods in economics, suitable both for mathematicians and economists.

In 2019, the Ljubomir Martić award was established. It is award for best papers and books in the field of quantitative economics. Ljubomir Martić was a Croatian mathematician and economist, a member of the Department of Mathematics.

Department of Organization and Management of Faculty of Economics and Business, University of Zagreb covers all key disciplines of this dynamic field.

Through offered program and courses, students can gain basic knowledge and skills in management and organization. Courses of the department seek to provide answers to questions on how to organize, manage and lead a variety of organizations and their components, to coordinate activities and tasks, focus and guide their employees, manage tasks, ideas, resources and time.

Čule, Marko, PhD; Herceg, Romina, MA; Lizačić, Constanza, MSc; Mazinjanin, Predrag, MA; Milinović, Ivan, PhD; Udodovsky, Ines, MA

The history of students' PE dates back a long time, to 1963, with the Department of Physical Education at the Faculty of Economics and Business being established in the 80s. Today, the department counts 6 members, who conceptualize and hold regular PE classes for full-time, as well as part-time students of integrated undergraduate and graduate study programs, undergraduate study programs (both, taught in Croatian and English), and professional undergraduate study programs. Goals of PE classes are improvements in students' anthropological and physiological characteristics, positive influence on the educational component, along with the promotion of sports in general. However, the main task of the department's members, besides motivating students' individual physical exercise is counteracting the process of premature loss of certain properties, abilities and motor functions due to lack of physical activity.

PE is represented in the curriculum as either compulsory or elective courses, held at the faculty's gym and additional locations. Content-wise, students are offered a kinesiological program: fitness, rugby, basketball, volleyball, futsal, badminton, swimming, rowing, hiking, cyclic sports outdoors: bicycling, jogging and ski school.

The department cooperates with the Croatian Institute of Public Health, the Croatian Olympic Committee, the Croatian Kennel Club, the Sports Services/ Office at the University and the Croatian Academic Sports Association.

All sports programs at the faculty fall into the responsibility of the department's members. The Faculty of Economics Sports Association, established in 2007 unites the faculty's students', professors' and employees' physical activity. Students compete in over 20 male and female disciplines at the University's sports Championship. The best gain the possibility to perform nationwide at the Croatian University's sports Championships. Professors and employees of the Faculty participate in recreational activities: fitness, futsal, basketball, volleyball and swimming.

In addition to classes and competitions, members of the Department of Physical Education participate in seminars, scientific conferences and congresses on educational kinesiology. Further they conduct scientific research and publish papers in scientific journals. Research results are presented at conferences in Croatia and abroad.

Statistical methods are fundamental analytical methods for economics and business administration. Statistical data on economic trends, statistical indicators and models provide information that enable the following of economic trends, implementation of economic policies, business decision-making and predicting.

The science of statistics includes theory, methods and their application. Some of the courses are available in English language within Bachelor Degree in Business Programme (BDiB). Department of Statistics also offers the University Specialist Postgraduate Study Programme "Statistical Methods for Economic Analysis and Forecasting".

Curricula of a number of postgraduate programmes include courses in statistics. Computer programmes such as SAS, STATISTICA, Stata, EViews are very important in class and they are available to our students.

Our department members also achieve significant research results. They present their research at conferences in Croatia and abroad and also publish their work in scientific journals.

The Department of Tourism is a member of UNWTO since 1988 and was the only representative from Croatia (and Central and South East Europe) in this prominent organization for a long time. The Department is among the first educational institutions in the World receiving (2001) the prestigious UNWTO certificate (TedQual certificate), which guaranteed that education and research at the institution was carried out in accordance with the highest quality standards prescribed by the UNWTO. Today, the UNWTO Knowledge Network is a prestigious club of 70 institutions from 41 countries.

Baković, Tomislav, PhD; Dunković, Dario, PhD; Dužević, Ines, PhD; Kovač, Ivan, PhD; Nikolić, Helena, PhD; Petljak, Kristina, PhD; Štulec, Ivana, PhD

ASSISTANT PROFESSOR

Damić, Mate, PhD; Delić, Mía, PhD; Naletina, Dora, PhD

POSTDOCTORAL ASSISTANT & RESEARCHER

Jurčević, Marija, PhD

TEACHING & RESEARCH ASSISTANT

Buntić, Luka, PhD; Sesar, David, MA

Department of Trade and International Business provides students with knowledge necessary for jobs in domestic and international trade, service industry and manufacturing. Courses taught by our department members study entrepreneurship and trade management within Croatian economy, and its activities within international trade. In the 3rd and 4th year, the department offers courses in domestic and international trade, while Master students majoring in Trade learn about contemporary ways of business administration in trade. Some of courses are available in English language within Bachelor Degree in Business Programme (BDiB) and Master level is fully taught both in Croatian and English language.

Postgraduate study programme Quality Management offers courses that deal with quality management in contemporary business environment according to international norms, and postgraduate study programme Trade Management provides students with knowledge and skills necessary for efficient management in corporate trade sectors.

The department also participates in professional degree programme Trade. Students of this programme acquire knowledge and skills necessary for contemporary and practical operative management of commercial and other similar businesses in domestic and international exchange of goods, services, capital and human resources.

A significant number of teachers is involved in postgraduate doctoral studies in Economics and global security (leader Tonći Lazibat, PhD). A part of teachers participates in the postgraduate doctoral studies in Economics and Business Economics

Our department members permanently work on their expertise, do various research projects, cooperate with scientists and institutions in Croatia and abroad, publish books, textbooks and papers in the field of domestic and international trade.

Excellence Awards in **Teaching and Research**

The background features a vertical gradient from purple at the top to yellow at the bottom. On the right side, there are several overlapping, light-colored circles and lines that create a complex, abstract pattern.

Aleksić, Ana (2021) Acknowledgment for outstanding results in teaching performance at FEB's university study programme for the period 2016-2021. (University of Zagreb Faculty of Economics & Business).

Arčabić, Vladimir (2021) Annual award for outstanding contribution to FEB's research productivity in 2021– measured by total number of published papers and citations. (University of Zagreb Faculty of Economics & Business).

Arčabić, Vladimir (2021) Ljubomir Martić Recognition for outstanding scientific article: Arčabić, V. & Škrinjarić, T. (2021) Sharing is caring: Spillovers and synchronization of business cycles in the European Union. *Economic Modelling*, 92 (2021), 25-39. DOI:10.1016/j.econmod.2020.12.023. (University of Zagreb Faculty of Economics & Business).

Čeh Časni, Anita (2021) Ljubomir Martić Award in B category – book or university textbook in the field of economics, sub-field of quantitative economics: Jakšić, S., Erjavec, N. & Čeh Časni, A. (2020) *Metode primijenjene matematičke i statističke analize*. Zagreb: University of Zagreb Faculty of Economics & Business. (University of Zagreb Faculty of Economics & Business).

Čižmešija, Mirjana (2021) Ljubomir Martić Award in C category – scientific article in the field of economics, sub-field of quantitative economics, published or available in journals, proceedings or other media of scientific communication: Sorić, P., Čižmešija, M. & Matošec, M. (2020) EU consumer confidence and the new modesty hypothesis. *Social Indicators Research*, 152 (3), 899-921. DOI:10.1007/s11205-020-02449-x. (University of Zagreb Faculty of Economics & Business).

Dabić, Marina (2021) Annual award for outstanding contribution to FEB's research productivity – measured by h-index, total citations, and most cited article published in the last 5 years. (University of Zagreb Faculty of Economics & Business).

Dabić, Marina (2021) WAIB Best Paper Award presented at Academy of International Business Conference 2021: Terpstra-Tong, J., Ralston, David A., Treviño, Len, Furrer, O., Froese, F., Tjemkes, B., Darder, F., Richards, M., Dabić, M., Li, Y. & Fu, P. (2021) The impact of gender role orientations on subjective career success: A multilevel study of 36 societies. (AIB, 2021).

Erjavec, Nataša (2021) Ljubomir Martić Award in B category – book or university textbook in the field of economics, sub-field of quantitative economics: Jakšić, S., Erjavec, N. & Čeh Časni, A. (2020) *Metode primijenjene matematičke i statističke analize*. Zagreb: University of Zagreb Faculty of Economics & Business. (University of Zagreb Faculty of Economics & Business).

Globan, Tomislav (2021) Pero Jurković Award in C category – scientific paper in a field of finance: Globan, T. & Škrinjarić, T. (2020) Penny wise and pound foolish: Capital gains tax and trading volume on the Zagreb Stock Exchange. *Public Sector Economics*, 44 (3), 299-329 doi:10.3326/pse.44.3.2. (University of Zagreb Faculty of Economics & Business).

Horvatinović, Tin (2021) Mijo Mirković Award in B2 category – group-author scientific paper: Mikić, M., Horvatinović, T. & Kovač, I. (2021) Climbing up the regional intellectual capital tree: An EU entrepreneurial ecosystem analysis. *Journal of Intellectual Capital*, 22 (6), 1030-1054. DOI:10.1108/JIC-07-2020-0258. (University of Zagreb Faculty of Economics & Business).

Jakšić, Saša (2021) Ljubomir Martić Award in B category – book or university textbook in the field of economics, sub-field of quantitative economics: Jakšić, S., Erjavec, N. & Čeh Časni, A. (2020) *Metode primijenjene matematičke i statističke analize*. Zagreb: University of Zagreb Faculty of Economics & Business. (University of Zagreb Faculty of Economics & Business).

Klindžić, Maja (2021) Acknowledgment for outstanding results in teaching performance at FEB's professional study programme for the period 2015-2020. (University of Zagreb Faculty of Economics & Business).

Knezović, Ankica (2021) Best European Learning Materials Awards (BELMA) 2021: Čajo Anđel, K. & Knezović, A. (2021) *New Building Blocks 3: A course for English language learning in primary schools*, 3rd grade. [student's book, workbook, flashcards, posters, CD and digital course material]. Zagreb: Profil Klett d.o.o. (IARTEM International Association for Research on Textbooks and Educational Media, EEPG European Educational Publishers Group & Frankfurt Book Fair).

Kovač, Ivana (2021) Mijo Mirković Award in B2 category – group-author scientific paper: Mikić, M., Horvatinović, T. & Kovač, I. (2021) Climbing up the regional intellectual capital tree: An EU entrepreneurial ecosystem analysis. *Journal of Intellectual Capital*, 22 (6), 1030-1054. DOI:10.1108/JIC-07-2020-0258. (University of Zagreb Faculty of Economics & Business).

Matošec, Marina (2021) Ljubomir Martić Award in A category – Doctoral thesis in the field of economics, sub-field of quantitative economics: Matošec, Marina (2021) Modeliranje učinka fiskalne politike na pouzdanje potrošača kao prediktora ekonomske aktivnosti [Modeling the effect of fiscal policy on consumer confidence as a predictor of economic activity]. PhD Thesis. Zagreb: University of Zagreb Faculty of Economics & Business. (University of Zagreb Faculty of Economics & Business).

FACULTY JOURNALS

Acta Turistica (ISSN 0353-4316; ISSN 1848-6061 (online)) is the first scientific journal published by the Faculty of Economics & Business, University of Zagreb. It dates from 1989 with two issues published annually in Croatian and English. The journal tackles a wide range of scientific and professional topics and discussions in tourism research. Acta Turistica is strategically oriented towards connecting the Croatian and the world tourism research community, its academics, practitioners and students. It is intended to encourage deliberations on the pertinent issues. Its multidisciplinary orientation is evident from the composition of the Editorial Board that consist of renowned scholars, including 13 fellows of the International Academy for the Study of Tourism, covering a variety of research areas, such as economics, management, finance, geography as well as anthropology and sociology. Acta Turistica is indexed in CAB Abstract, CIRET, EBSCO GreenFILE, EBSCO Tourism & Hospitality Complete, EconLit, Hrčak, JSTOR, Loreto Thesaurus, ProQuest ABI/INFORM, ProQuest East & Central Europe Database, ProQuest Entrepreneurship Database, ProQuest Social Science Premium Collection, Scopus and WoS CC ESCI. The journal provides open access to its content based on the principle that making research results freely available to the public supports greater global exchange of knowledge. All information is accessible at www.efzg.unizg.hr/actaturistica.

Market-Tržište (ISSN 0353-4790) is a scientific journal for marketing theory and practice, and the official journal of the University of Zagreb's Faculty of Economics & Business, Marketing Department and CROMAR (Croatian Marketing Association). Twice a year since 1989, the journal has been publishing scientific papers from all areas of marketing, especially those focused on emerging markets as well as the interdisciplinary papers that involve marketing. The journal's mission is to be the leading scientific marketing journal in Central and Eastern Europe. As a result of the strategic approach, that has included the prestigious members of the marketing scientific community in the editorial board as well as the authors and reviewers from 56 countries from six continents, Market-Tržište has been included for abstracting / indexing in Scopus, WOS Emerging Sources Citation Index, EconLit, Pro-Quest ABI/INFORM, EBSCO Publishing - Business Source Complete, Central and Eastern European Online Library - CEEOL, DOAJ, RePEc, Index Copernicus International, Cabell's International, Central European Journal of Social Sciences and Humanities - CEJSH, CiteFactor, European Reference Index for the Humanities and Social Sciences - ERIH PLUS and Portal of scientific journals of Croatia "Hrčak". Market-Tržište is available in open access and all information can be found at www.efzg.unizg.hr/market.

InterEULawEast – Journal for International and European Law, Economics and Market Integrations (ISSN 1849-3734) is a scientific journal that publishes papers on legal and economic aspects of the European Union and other market integrations, market freedoms and restrictions, market competition and intellectual property rights, company law and corporate management, international trade and international private and public law. It was founded in 2014 as a result of a Tempus project entitled European and International Law Master Programme Development in Eastern Europe, and comes out twice a year in print and electronic formats. The journal is indexed in Scopus, EBSCO Business Source Corporate, EBSCO Business Source Complete, HeinOnline and Hrčak - Portal of scientific journals in Croatia. In December 2018, the special issue "European Company Law & Corporate Governance" was published.

Poslovna izvrsnost - Business Excellence (ISSN 1846-3355) is a scientific journal founded in 2007 and published twice a year by the Department of Trade and International Business of the Faculty of Economics, University of Zagreb. The journal is oriented toward academics and practitioners dealing with quality and broader economic topics united under the title of business excellence. The journal welcomes papers that contribute to theoretical, methodological and empirical knowledge in complex areas of macroeconomics, microeconomics, international economics, finance, accounting, business informatics, management, marketing, trade and tourism. Papers can be based on quantitative and qualitative analyses, may synthesize and review previous scientific researches and indicate open research questions in the specific areas of social and economic practice. The journal is primarily oriented on the region of Central and Eastern Europe (CEE), which due to its dynamic economic development stands as a fertile ground for diversiform scientific research. The journal "Poslovna izvrsnost - Business Excellence" is indexed in the following databases: EconLit, ProQuest ABI / Inform, ProQuest Social Science Premium Collection, CAB Abstracts, Directory of Open Access Journals (DOAJ), RePEc and Hrčak - Portal of scientific journals in Croatia. Recently, the journal went through a series of changes in order to comply with its regional focus and broad economic and business scope. The changes are reflected through transition to English language as a primary language and diversified geographical distribution of authors and editors.

Zagreb International Review of Economics and Business (ISSN 1331-5609) is a scientific journal covering a wide range of macroeconomics, microeconomics, management, marketing and tourism topics. It features theoretical and empirical research in the areas of economics and business, as well as other current relevant economics-related research. Since 1998 it has come out twice a year, but every other year it also publishes a Special Conference Issue consisting of the selected papers that were featured at FEB's international conference Enterprise Odyssey. In its December 2018 Issue ZIREB published Special Conference Issue with the selected papers presented at 9th International Conference "An Enterprise Odyssey: Managing Change to Achieve Quality Development". ZIREB is especially proud on being the first FEB's journal which entered Emerging Sources Citation Index (database within Clarivate Analytics' Web of Science). Today ZIREB is referred in many databases such as EconLit, EBSCO, ProQuest, RePEc, CEJSH, CNPIEC etc. According to IDEAS/RePEc Aggregate Rankings for Journals it is the best ranked FEB journal.

Zbornik Ekonomskog fakulteta u Zagrebu / Proceedings of Faculty of Economics and Business (ISSN 1333-8900) in Zagreb is scholarly journal that covers a wide range of social topics in the field of economics. It publishes scientific and professional papers, book reviews and other economics and business research outputs on Croatian and English language. The first issue was published in 2003 and from 2009 it has regular frequency of two issues per year. The journal is indexed in following databases: EconLit, ProQuest ABI/INFORM Collection, ProQuest Social Science Premium Collection and Hrčak – Portal of Scientific Journals of Croatia.
