MISSION STATEMENT:

We create a positive impact on society by nurturing a community of value-creators and changemakers, empowered to reach their full potential through socially responsible, globally relevant, education and research.

VISION:

Our vision is to be a forerunner of positive social change through excellence in economics and business developments in Croatia, the region, and beyond!

FACULTY MOTTO:

Tradition and innovations in education and research – the path to future.

CORE VALUES:

People first
Academic excellence
Integrity and honesty
Community and social responsibilities

PREFACE

The University of Zagreb Faculty of Economics and Business (FEB) serves as vibrant hub of intellectual activity, fostering an environment where ground-breaking research is conducted, innovative ideas are nurtured, and intellectual contributions are made. The intellectual research outputs generated by FEB is a testament to the institution's commitment to advancing knowledge and pushing the boundaries of human understanding.

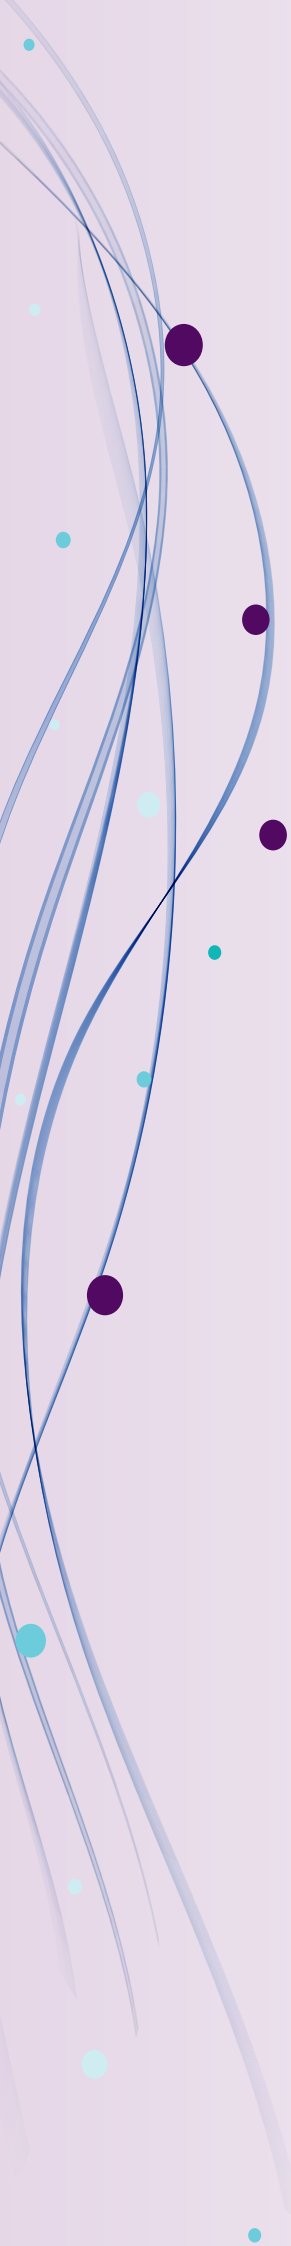
The significance of FEB's intellectual research output extends beyond the academic realm. It has the power to shape policy decisions, inform public discourse, inspire technological advancements, and improve the quality of life for individuals and communities worldwide. The impact of these research outputs can be observed in numerous fields, from scientific breakthroughs that revolutionize social visibility, to outputs that inform public policy and contribute towards the development of more inclusive societies.

FEB plays a critical role in fostering an environment conducive to intellectual exploration and research excellence. FEB provides the necessary resources, infrastructure, and support systems needed to enable researchers to undertake rigorous investigations and produce high-quality outputs. Moreover, FEB serves as a platform for collaboration and interdisciplinary exchanges, encouraging researchers from diverse backgrounds to come together, share ideas, and embark on joint ventures that transcend traditional disciplinary boundaries.

The impact of our research extends beyond mere citation metrics or a journal's reputation. Rather, our work holds the potential to contribute to the greater good, address real-world challenges, and inspire fellow researchers to embark on their own transformative journeys. Journal publications allow us to serve as catalysts for positive change, leaving an indelible mark on our respective fields through pioneering scholarly work.

This research aims to explore the various facets of FEB's intellectual research output, examining its significance, its impact, and the factors that contribute to its success. By delving into specific examples and projects, we highlight the transformative power of FEB's research, showing how it shapes the world we live in and provides solutions to some of the most pressing challenges of our time. Ultimately, understanding and appreciating the intellectual research outputs of FEB is crucial when it comes to recognizing the vital role FEB plays in advancing knowledge, driving innovation, and fostering a better future for all.

Professor Marina Dabić and Professor Sanja Sever Mališ, Dean.



ENHANCING INTELLECTUAL CONTRIBUTIONS, IMPACT, AND MISSION ALIGNMENT: DRIVING EXCELLENCE IN RESEARCH, ENGAGEMENT, DEVELOPMENT, AND INNOVATION

The University of Zagreb, Faculty of Economics and Business (FEB) is home to Croatia's largest, oldest, and most influential school, which serves to represent a responsive and adaptable business school, holding prestigious AACSB, EFMD, and EQUIS accreditations. Over the last 102 years, FEB has increased the successful development of its faculty, its academic aptitude, and its intellectual contribution, continuously developing its international profile and reputation. FEB has held the role of 'national market leader' across all of its activities. Thus, FEB's mission focuses on engaged scholarship, creativity, and efficacy in making research relevant to multiple stakeholder audiences. The pursuit of knowledge and intellectual exploration lies at the heart of FEB's mission.

FEB'S MISSION

We create a positive impact on society by nurturing a community of value-creators and changemakers, empowered to reach their full potential through socially responsible, globally relevant, education and research.

Promoting excellence requires the adoption of a multifaceted approach that encompasses robust research, active engagement, continuous development, and innovative practices. This comprehensive strategy enables FEB to foster intellectual contributions, maximize impact, and align endeavours with a clear mission. Here, we delve into the key areas that play a pivotal role in achieving these goals.

Research: Research forms the bedrock of intellectual progress. By encouraging and investing in rigorous research, FEB generates valuable insights, expands knowledge boundaries, and contributes to their respective fields. A commitment to scholarly pursuits fuels innovation, facilitates evidence-based decision-making, and promotes excellence.

Engagement: Active engagement with various stakeholders is crucial to FEB's goal: to have a meaningful impact. This includes fostering collaboration with industry partners, communities, and academia. By actively involving external entities, FEB leverages diverse perspectives, sharing expertise, and forging partnerships that drive positive change. Engaging with stakeholders improves the relevance of research and development initiatives, ensuring they address real-world challenges and create lasting value.

Development: Continuous development lies at the core of excellence. FEB invests in the growth and skill improvement of its members. This is achieved through professional development programs, mentorship, and training opportunities. By nurturing a culture of lifelong learning and personal growth, FEB empowers its workforce to stay ahead of emerging trends, adapt to evolving challenges, and deliver outstanding results.

Innovation: Embracing innovation is essential to remain competitive and advance the mission of FEB. Encouraging a culture of creativity and risk-taking fosters an environment where new ideas flourish. This may involve implementing processes for idea generation, supporting interdisciplinary collaborations, and providing resources for experimentation.

By embracing innovation, FEB develops groundbreaking solutions, disrupts traditional practices, and achieves transformative outcomes.

Alignment with Mission: Finally, all intellectual contributions, impact, research, engagement, development, and innovation should be aligned with a clear mission. FEB sets out a compelling vision and purpose that guides its endeavours. This alignment ensures that efforts are directed towards meaningful goals, reinforcing the organization's identity and maximizing its positive influence on society.

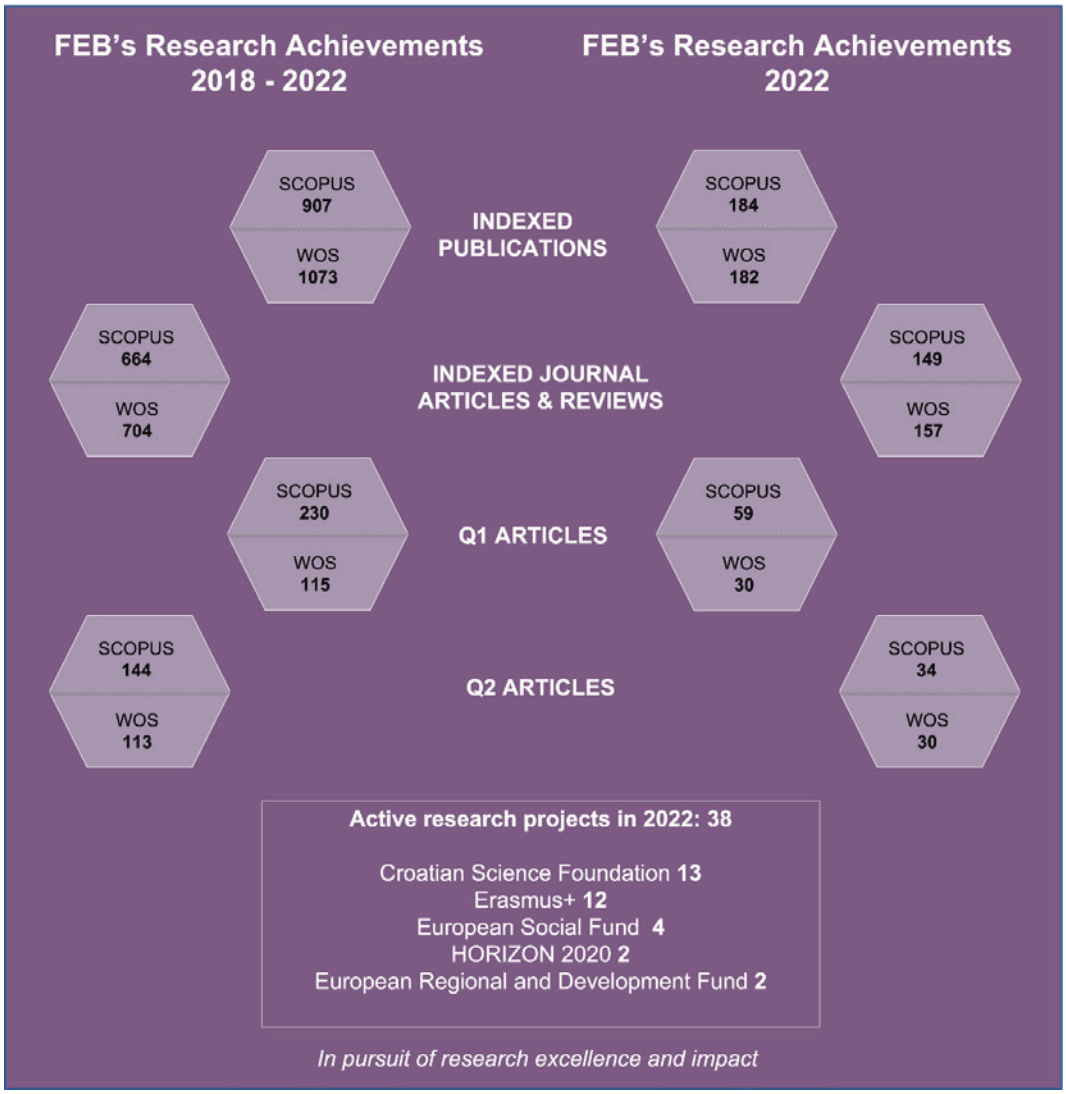
By prioritizing research, fostering engagement, investing in development, encouraging innovation, and aligning these pursuits with a well-defined mission, FEB truly promotes excellence. This comprehensive approach enables us to make substantial intellectual contributions, creating a significant impact and driving positive change in FEB's respective domains.

The content of Research Output for 2022 covers the selected bibliographies and listings for various teachers' academic activities in 2022, following the established methodology of previous issues regarding Research Output publications. Special emphasis is placed on the activities organized by FEB, such as publishing monographs and journals, hosting conferences, and monitoring and issuing theses. According to ORCID, CROSBI, Google Scholar, WoS, and Scopus, researchers' profiles aim to raise awareness concerning personal and institutional visibility in the academic environment and at national and international levels. Furthermore, FEB encourages its researchers to increase their impact, improve the quality of their publications by addressing many of the challenges facing contemporary society, and focus on scientific reputations and rankings of journals.

Various sources for data collection are used for bibliographies and analytics, such as the Academic Journal Guide 2021, the Croatian Scientific Bibliography CROSBI, the FEB Library catalogue, the FEB Official Website, Journal Citation Reports, REPEFZG Digital Repository, Scopus, Scimago Journal and Country Rank, and the Web of Science (WoS).

Insights into the top-quality research outputs in the 2018-2022 period are provided, and 2022 alone is shown in Figure 1 to provide an introduction to the detailed statistics and bibliometric data interpretation.

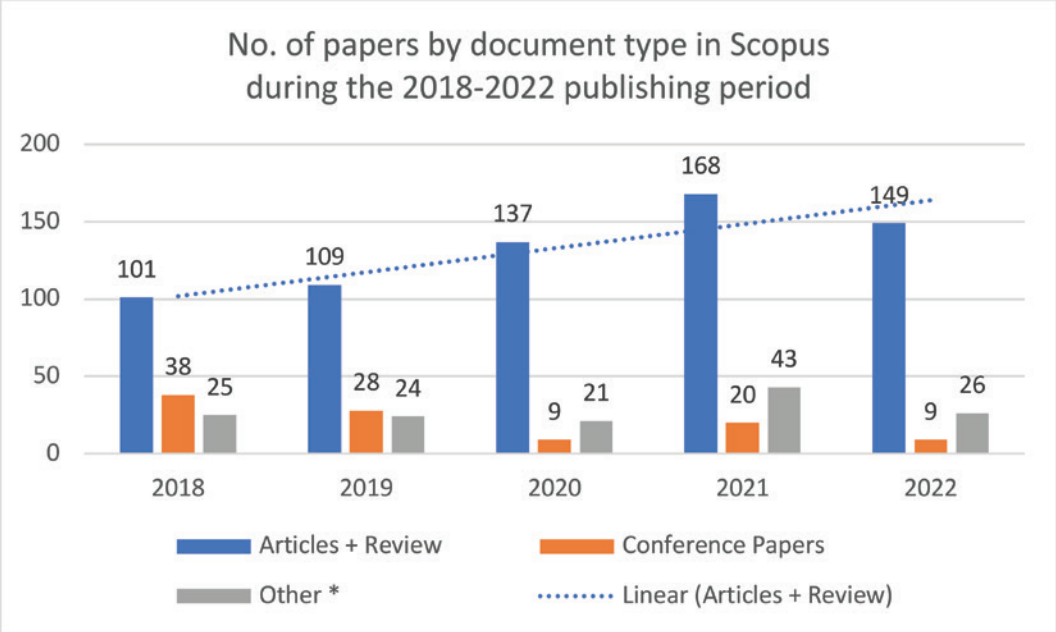
Figure 1. FEB's Research Achievements 2018-2022



Source: Research Output 2022.

Figures 2 and 3 show FEB's significant improvements in quantity, and especially the quality of research outcomes and its impact in 2022, when FEB's core faculty members published 184 papers indexed in Scopus and 182 papers indexed in WoS. From 2018 until 2022, FEB's core faculty members published 907 papers indexed in Scopus and 1073 papers in WoS.

Figure 2. Total number of papers in Scopus - selected document types - publishing period 2018-2022



*Source: Scopus. Data export - end of April 2023. Early access in 2022 included. Category Others includes * editorials, book chapters, notes, erratum, short surveys, etc.*

Figure 3. Total number of papers in WoS - selected document types - publishing period 2018-2022

Thus, FEB's management continually cultivates a strong research culture among its faculty members, which has substantially improved over the years. The highest priorities are research profiles in terms of engagement, innovation, performance, impact; ERS; and the drive to advance economics, business theory, and practice. The faculty's scientific activity is also embodied in its number of published books, edited books, educational

materials, and book chapters, all developed through active participation in scientific and professional conferences and through the supervision of doctoral theses.

Table 1 reveals FEB's total research output from 2018 to 2022, as recorded in the Croatian Scientific Bibliography. The evidence presented here implies that our faculty is impacting students across the country through academic monograph publications. It is also significantly impacting other academic researchers, as valuable peer-reviewed journal articles are being published.

Table 1. FEB's total research output by CROSBI, publishing period 2018-2022

Table 5. shows the best journals (3* and 4* according to CABS AJG 2021) in which FEB's core faculty published their articles in 2022. The *International Journal of Operations and Production Management,* the *Journal of Vocational Behavior, Regional Studies,* and *Tourism Management* are among the best journals.

As an indicator of research prestige and impact, editorships activities have been evidenced and analysed. In total, 156 faculty members (or 60%), participate in editorships activities in different roles. There is total of 141 scientific and professional journals in which FEBs' faculty are involved in as editors, of which 37 journals are related to Croatian publishers, 21 to UK publishers and 14 journals are from the USA. Table 6 shows the best journals with regards to FEB's core faculty in editorships roles. For example, Professor Josip Mikulić is a guest editor in *Tourism Management* (4*), Professor Marina Dabić is an department editor and guest editor in *IEEE Transactions on Engineering Management*, and an associate editor of *Technological Forecasting and Social Change and* an editorial board member of the *Journal of Business Research.* Professor Đurđana Ozretić Došen, Morana Fudurić, and Sandra Horvat are a guest editors in the *Journal of Business Research*.

VISUALIZATION BASED ON BIBLIOMETRIC ANALYSIS

Bibliometric analysis can be considered either basic or advanced, where basic bibliometric analysis presents the descriptive analysis of a publication activity and scientific mapping, which is based on bibliometric analysis, such as bibliometric coupling, co-citation analysis, co-occurrence analysis, co-authors analysis, etc. Advanced bibliometric analysis is moving beyond bibliometric analysis, applying the theory of social networks, clustering, and visualization to publication metadata sets and usual bibliometric techniques. The visualization of bibliographic networks is a graphical representation of the results of bibliographic(science) mapping, and can be displayed as a two-dimensional map, dendrogram, or social network. Two software packages will be used as bibliometric analytic tool, VOSViewer and Biblioshiny.

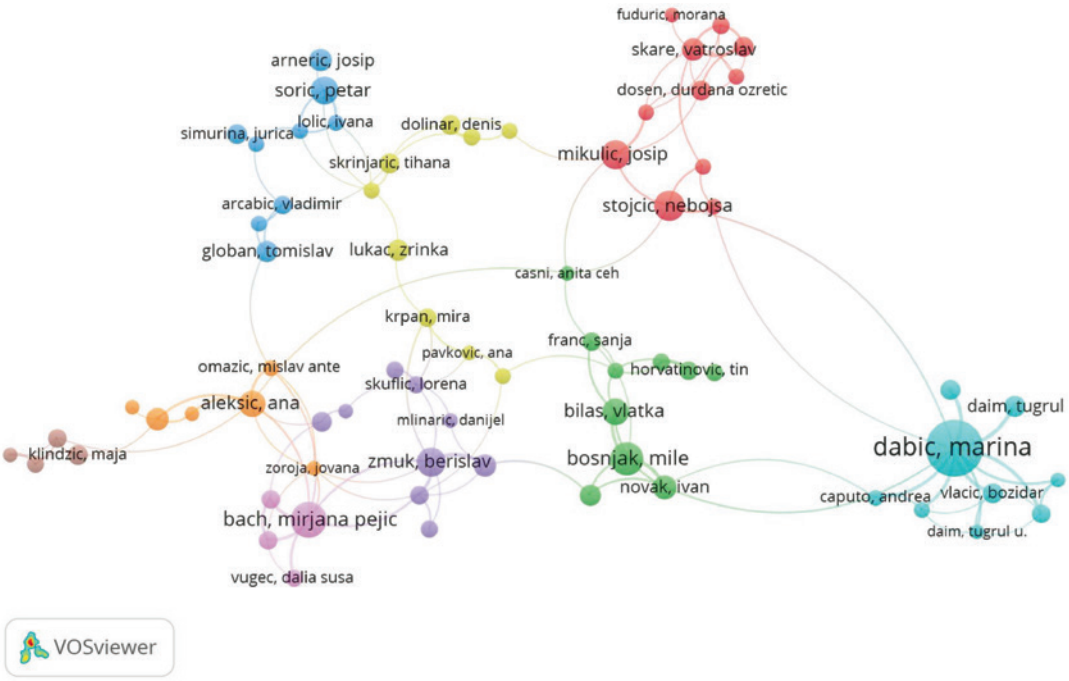
Biblioshiny is an online version of the bibliometrix software package developed in 2017 in the R programming language by Massimo Aria and Corrado Cuccurullo, professors at the Department of Economics and Statistics of the University of Naples, Federico II. It is an open-source software used for the comprehensive bibliometric analysis of scientific literature, and it has pronounced possibilities of integration with other statistical and graphical tools used in bibliometrics. VOS in VOSViewer is an acronym for Visualization of Similarities. It was developed by Nees Jan van Eck and Ludo Waltman at Leiden University's Centre for Science and Technology Studies, Netherlands. VOSviewer has been developed in the Java programming language and can be used freely with no computer programming knowledge for constructing and visualizing bibliometric networks based on bibliographic analysis of selected scientific literature.

Figure 6. Descriptive analysis of metadata

Source: Biblioshiny. Data set: WoS, 2018-2022. Document type: articles + reviews.

Figure 6 presents a descriptive analysis of metadata from the period between 2018 and 2022. It includes 704 documents collected from WoS. A total of 1002 authors participated in the observed body of literature, with 50 of them having written independent works. 34% of the papers were the result of international collaboration, involving at least one foreign author. The average number of co-authors per article is 3, and the average citation per document is 7, which is a good indicator considering the analysis covers the last 5 years.

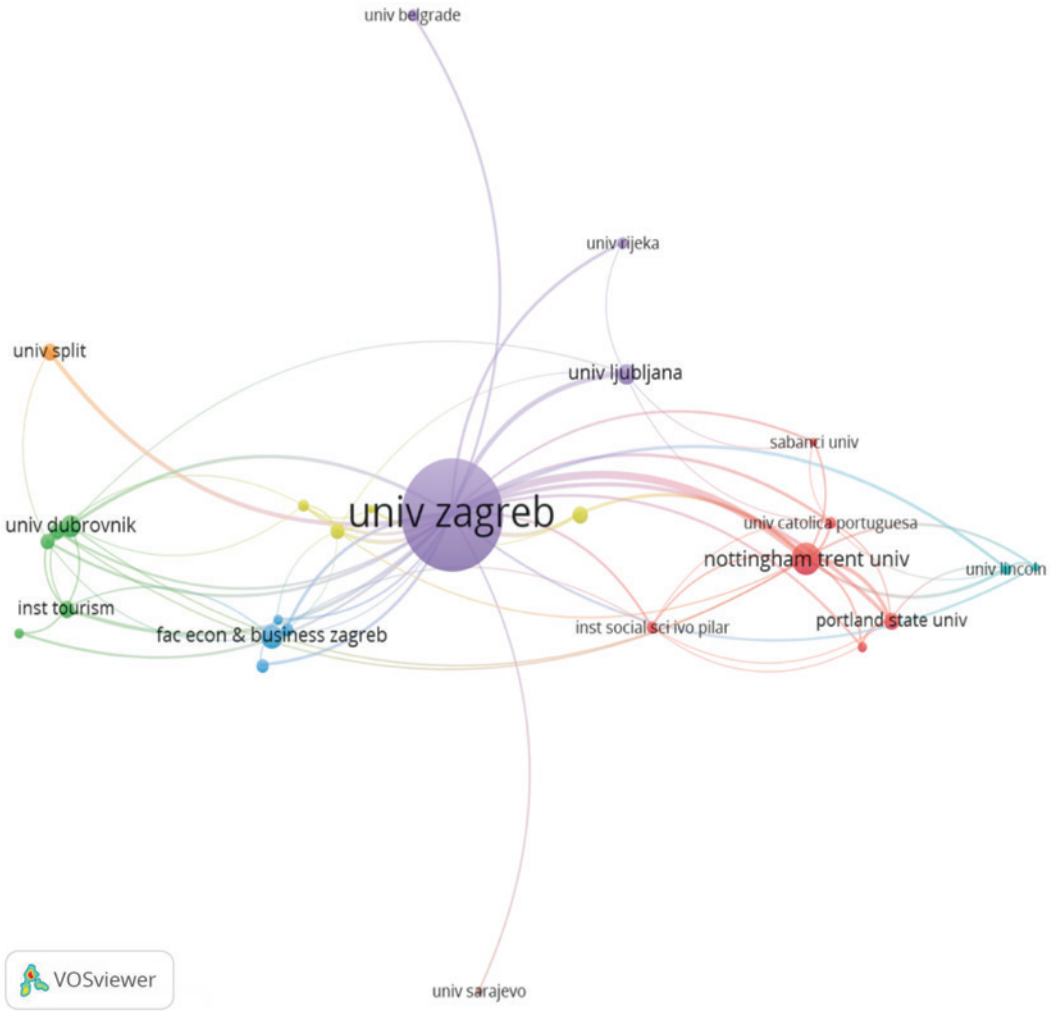
Figure 7. FEB's authors referenced in WoS and their strongest cooperation



Source: Vosviwer. Data-set: Web of Science 2018-2022. Document type: Article + Reviews.

Figure 7 shows the co-authors network of FEB's authors and their collaborators on publications from 2018 to 2022. The figure network includes authors with at least 5 documents and 5 citations. Authors of the same color gather closer collaborators, and the size of the circles reflects the number of papers in which an author participates within the network. In bibliometrics, co-authorship analysis is said to reveal hidden communities of authors who collaborate in scientific research and, in this case, it also uncovers interdepartmental collaborations.

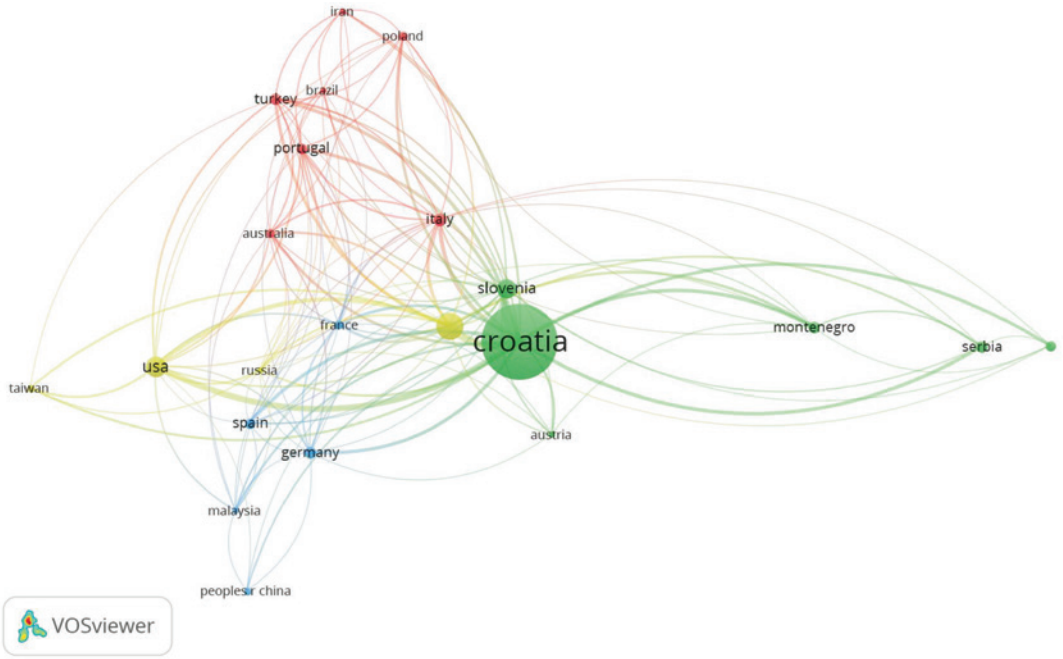
Figure 8. Network of organizations' collaborations



Source: Vosviwer. Data-set: Web of Science 2018-2022. Document type: Article + Reviews.

FEB is one of the 31 constituents of the University of Zagreb. Figure 8 illustrates the collaborations between researchers from FEB and academics from various institutions in Croatia, particularly the Universities of Dubrovnik, Split, Rijeka, and University North. Additionally, authors from FEB are connected to universities in Maribor, Ljubljana, Montenegro, Belgrade, Portland State University, and Católica Porto Business School. Among these connections, the collaboration strength with Nottingham Trent University from the UK stands out as one of the strongest links. On the other hand, researchers from FEB also collaborate with research institutes, such as the Institute of Social Sciences Ivo Pilar, the Institute for Tourism, and the Institute of Public Finance. Authors from the Faculty of Economics and Business are located within the nodes of the University of Zagreb, as well as within smaller nodes where the institution is normalized under a specific name. This represents a particular challenge when it comes to analyzing scientific productivity in Croatia.

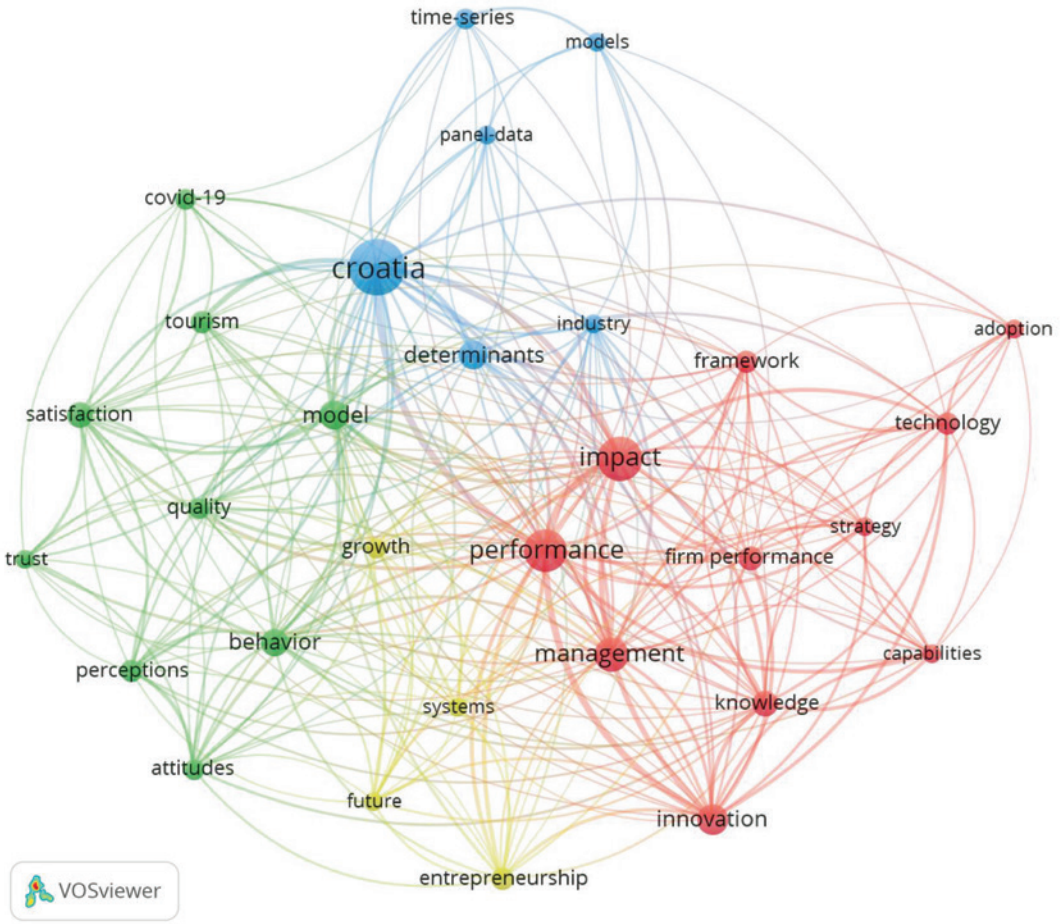
Figure 9. Embedding engagement in international research



Source: Vosviwer. Data-set: Web of Science 2018-2022. Document type: Article + Reviews.

Researchers from FEB have an international orientation, with the majority of their research being conducted in English. This can be observed in Figure 9, which demonstrates that authors primarily collaborate with partners from England, the USA, Italy, Portugal, Spain, France, Turkey, Germany, and Australia. This confirms that researchers from FEB are actively following global trends and sharing their knowledge and experiences with international partners. Additionally, researchers from FEB are also connected to neighboring countries, such as Slovenia, Montenegro, and Bosnia and Herzegovina.

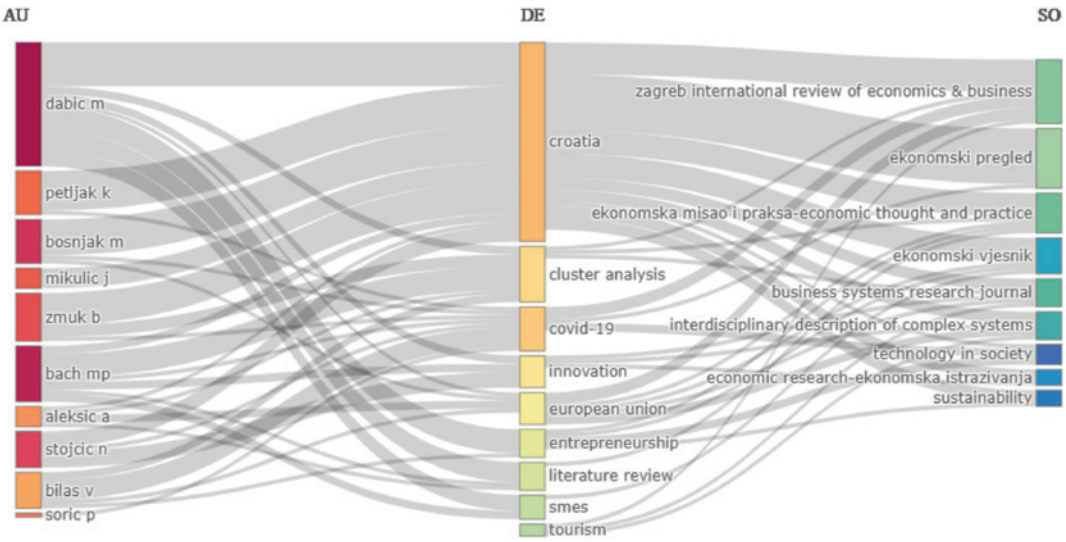
Figure 10. Most frequent keywords



Source: Vosviwer Co-occurrance analysis. Data-set: Web of Science 2018-2022. Document type: Article + Reviews.

Figure 10 displays the most frequently assigned keywords in publications from FEB. The map is based on co-occurrence analysis and includes database generated keywords that appear at least 15 times. These keywords are machine generated and are part of a controlled vocabulary, so they represent research discipline orientations, rather than topics. FEB's scientists have primarily focused on studying the situation in the Republic of Croatia across various scientific fields, such as management, finance, marketing, tourism, international economics, mathematics, statistics, and more. The blue cluster represents research studies that employ panel data and time series analysis techniques to investigate macroeconomic determinants. The green cluster indicates that FEB's authors have explored the situation in the Republic of Croatia in relation to tourism, the impact of COVID-19, perceptions, attitudes, and customer behavior. The red cluster signifies FEB's authors' research on various performance activities, predominantly connected to innovation, impact, technology, management, and strategy. The yellow cluster demonstrates the impact of entrepreneurship on growth. Figure 10 confirms that FEB's authors are actively engaged in interdisciplinary teaching and research, collaborating both within different departments and with international partners.

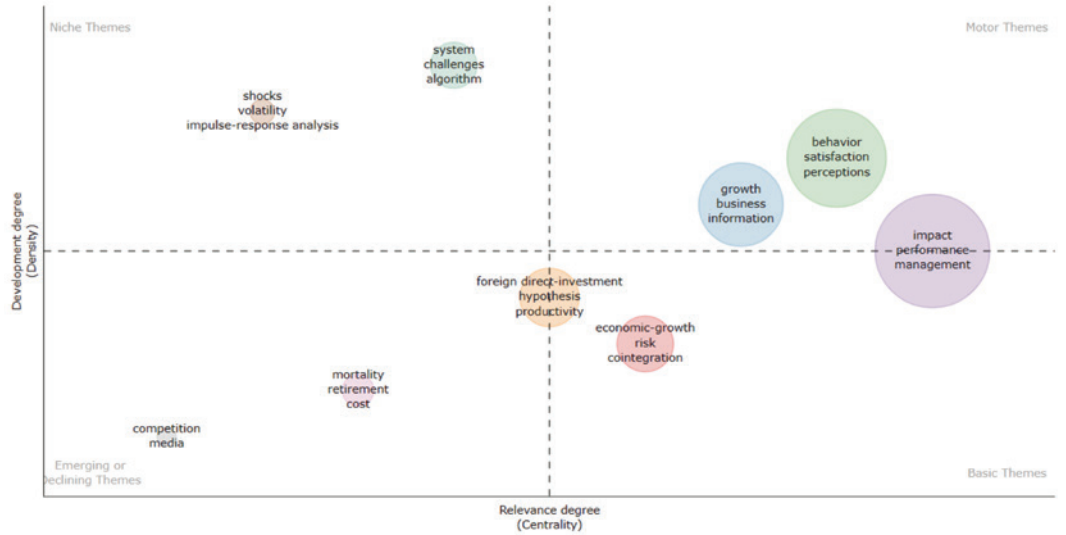
Figure 11. Tree-field Plot: authors, authors keywords, journals



Source: Biblioshiny. Data-set: Web of Science 2018-2022. Document type: Article + Reviews

Figure 11 depicts the connection between the most represented authors and keywords (KeywordPlus), along with the most frequently used journals. Authors Marina Dabić, Kristina Petljak, Mile Bošnjak, Josip Mikulić, Berislav Žmuk, Mirjana Pejić Bach, Ana Aleksić, Nebojša Stojčić, Vlatka Bilas, and Petar Sorić were the most represented during the period between 2018 and 2022.

Figure 12. Development and degree of relevance of the topic



Source: Biblioshiny. Data-set: Web of Science 2018-2022. Document type: Article + Reviews.

Figure 12 illustrates a thematic map representing the five-year period of analysis based on the most frequently used keywords by FEB researchers in their published articles and reviews. The x-axis represents the degree of relevance of the topic, while the y-axis represents the degree of topic development. In the first quadrant (motor themes), topics

with a high degree of relevance and development are located (e.g., behavior, satisfaction, impact, growth, information). The second quadrant (niche themes) showcases topics with a high degree of development, but a low degree of relevance, and usually they represent narrowly specialized topics among which can be found future research interests. The third quadrant (emerging or declining themes) displays topics with a low degree of both development and relevance. Topics related to economic growth, risk, and cointegration exhibit a high degree of relevance but a low degree of topic development, categorizing them as basic themes and part of a knowledge base for a respective literature corpus.

SUMMARY

Academic research is a pivotal catalyst for advancing knowledge, fostering innovation, and shaping our collective understanding of the world. By venturing into unexplored territories and pushing the boundaries of existing knowledge, we can unravel complex enigmas, tackle complex challenges, and drive societal progress.

Among the various channels for disseminating research findings and influencing scholarly discourse, publication in top-tier journals stands out as highly impactful. Distinguished journals inevitably attract the attention of esteemed scholars, practitioners, policymakers, and key stakeholders, providing an unparalleled platform through which researchers can establish credibility and ensure the widespread exposure of their work.

By contributing research to top-tier journals, researchers can be seen to actively add to the expanding reservoir of knowledge actively, initiating engaging scholarly discussions and inspiring further exploration within their respective research fields.

Our work holds the potential to shape policies, influence industry practices, and bring about tangible transformations in society, extending far beyond the realm of academia, and publishing in renowned journals enhances our professional reputation, elevates our academic standing, and opens the doors to many new opportunities. Collaborative endeavors with distinguished scholars, networking within our research community, and establishing ourselves as authorities in our respective fields have also become tangible outcomes. This recognition could lead to invitations to speak at prestigious events or conferences and fruitful collaborations with industry partners.

While the path to publishing in top-tier journals may appear formidable, scholars should persevere and adopt a systematic approach. Leveraging the available resources and support systems within our academic institutions and research communities, seeking guidance from experienced mentors, collaborating with colleagues, and actively engaging in constructive peer feedback are instrumental in enhancing the quality and impact of our work. Additionally, staying abreast of the latest research trends, methodologies, and publication requirements is paramount. Regularly attending conferences and workshops, actively participating in scholarly discussions, and subscribing to relevant academic journals are all indispensable strategies for fostering continuous learning, improving motivation, and enhancing the caliber of research outputs.

We are encouraged to embrace the academic research culture and strive for publication in top-tier journals. Our ideas, insights, and discoveries can shape the future, influence others, and leave an indelible imprint on our field. By collectively unleashing our intellectual potential and believing in the value of our work, we can continue to learn, while creating and disseminating knowledge.

By collaborating and combining our efforts, we have the potential to create a significant and far-reaching impact. Together, we can contribute to the advancement of our respective disciplines, as well as the Faculty of Economics and Business (FEB) at the University of Zagreb. However, our influence extends beyond academia alone. Through our collective work, we can make a positive difference in our society, both within our region and on a broader scale.

Let us embrace this opportunity to collaborate, share knowledge, and engage in meaningful research and projects. By working together, we can drive innovation, foster academic excellence, and address the challenges and opportunities that lie ahead. Our joint efforts have the power to shape the academic landscape and positively impact our country's social, economic, and cultural fabric.

Together, we can achieve remarkable outcomes and leave a lasting legacy. Let us strive for excellence, embrace diversity, and contribute to the greater good. Through our collaboration, we can make a resounding impact that transcends boundaries and extends beyond the confines of our immediate surroundings.

Thank you for your dedication and commitment to advancing our disciplines, the FEB, the University of Zagreb, and societies.

Professor Marina Dabić, Professor Zoran Krupka, and Silvana Brozović

Department of Accounting conducts research in scientific and professional disciplines that provides students with an understanding of the broad field of accounting and audit. Accounting as a whole may be divided into several main fields; basics of accounting, financial accounting, managerial accounting, cost accounting, financial statement analysis, audit. All of these major fields, as well as its separated parts are delivered to students as well-rounded courses which provide students the understanding of a wide range of accounting terms and processes covered with examples. Relevant themes about basic accounting principles, the national and international accounting standards, systems and controls, the analysis and audit of financial statements are offered to the students. Department of Accounting deliver lectures on university study programs and professional study programs in Croatian, as well as on undergraduate and graduate study programs in English. Members of the Department participate in many scientific projects in the field of accounting and auditing.

Accounting courses gain knowledge and skills necessary for highly technical jobs in accounting and audit that include all sectors of economy and public administration:

Finance sector (banks, insurance companies, investment and pension funds)

Commercial sector (manufacturing, trade and catering service enterprises)

Audit firms

Public sector (budget users and non-profit organizations)

Department of Business Foreign Languages

SENIOR LECTURER

Kabalin Borenić, Višnja, PhD; Kiss Kulenović, Boglarka, MA; Knezović, Ankica, MSc; Linčir Lumezi Mirna, MSc; Pandžić Kuliš, Drijenka, MA; Planinšek Čikara, Iva, MSc; Sladoljev Agejev, Tamara, PhD; Švob, Ankica, MA

LECTURER

Petanjek, Mirna, MA; Pezić, Romana, MA

LECTOR

Thevenet, Emilie, MA

In the contemporary business environment foreign language skills are a prerequisite for the success of business people and organisations. Media, especially the Internet, offer a wealth of information available only to people with foreign language skills.

The aim of this department is to develop communication skills in English, French, German, Spanish or Italian necessary for future business and academic careers.

We enhance students' writing and speaking skills through various teaching materials (texts for reading or listening comprehension, video material, websites, music and pictures) dealing with contemporary issues from the field of business and economics. We teach reading and listening strategies as well as structures used in conversation, meetings, negotiations, discussions, presentations etc. Classes are interactive and require regular attendance and full participation.

The courses are tailored to the needs of future business people who need to be informed about economic issues and current events in business and politics. Learning business languages, thus, enhances students' awareness of cultural differences.

Students are encouraged to read business magazines and books in order to be ready for the labour market where confidence in foreign languages contributes to increased competitiveness, mobility and independent performance.

Business English and Business German are compulsory in the first year and elective foreign business language courses are offered in senior years at undergraduate and graduate levels.

Apart from teaching, our department members publish textbooks, dictionaries, papers and translations, participate in international projects, professional associations and conferences. They cooperate with various cultural institutions:

British Council

Goethe-Institut

Alliance Française

L'Istituto italiano di Cultura

Department of Business Law

FULL PROFESSOR TENURED

Horak, Hana, PhD; Slakoper, Zvonimir, PhD

FULL PROFESSOR

Pecotić Kaufman, Jasminka, PhD

ASSOCIATE PROFESSOR

Dumančić, Kosjenka, PhD

ASSISTANT PROFESSOR

Babić, Marko, PhD; Šafranko, Zvonimir, PhD; Tot, Ivan, PhD; Vuletić, Dominik, PhD

POSTDOCTORAL RESEARCHER

Poljanec, Kristijan, PhD

The Department of Business Law at the University of Zagreb Faculty of Economics and Business is dedicated to providing a comprehensive range of obligatory and elective courses at the undergraduate, graduate, and postgraduate levels. Several of these are available in English to students pursuing Bachelor Degree in Business (BDiB). Additionally, the Department offers a Master program focusing on the "Legal and Economic Framework of Business in the European Union."

One particular source of pride for the Department of Business Law is its active collaboration with the esteemed European Law Institute (ELI). This fruitful partnership has yielded five successful international scientific conferences held between 2018 and 2022. Notably, in 2022, the Department hosted the 2nd Zagreb International Conference on the Law of Obligations from the 28th to the 30th of September, and the 5th International Conference on European Company Law and Corporate Governance from the 24th to the 25th of November.

Furthermore, the Department of Business Law actively engages with other prominent international scientific and professional associations, including the Academic Society for Competition Law (ASCOLA) and the International Chamber of Commerce (ICC).

Members of the Department play an instrumental role in various international projects, serving as key contributors. Notably, three recent projects deserve highlighting: the 'EUSolis - Solidary EU for inclusive society' Jean Monnet Action (Professor Kosjenka Dumančić), the 'COLECO Erasmus+ Project: Higher education curricula development on the Collaborative Economy in Europe' (Professor Kosjenka Dumančić), and the ELI Project 'Corporate Sustainability, Financial Accounting, and Share Capital' (Professor Hana Horak).

Department of Demography

FULL PROFESSOR TENURED

Akrap, Anđelko, PhD

ASSOCIATE PROFESSOR

Čipin, Ivan, PhD; Damjanić, Zdenka, PhD

ASSISTANT PROFESSOR

Međimurec, Petra, PhD; Strmota, Marin, PhD

POSTDOCTORAL ASSISTANT & RESEARCHER

Ivanda, Krešimir, PhD

The Department of Demography as a separate organizational unit at the Faculty of Economics & Business – Zagreb was founded in 1996. At that time, it was the only department of the sort in Croatia. However, population studies at the Faculty of Economics have a tradition more than half-a-century long.

As a self-standing course, Demography was introduced to the curriculum in 1953 at the Department of Statistics.

Demography is a scientific study of the determinants and consequences of population change. It is particularly relevant for economists because population change bears important implications for economies and policies.

The Department teaches the following courses at different levels of study (undergraduate and graduate): Demography, Labour Economics, Demographic and Social Development, Demographic Methods and Models, Introduction to Demography, and Economic Sociology.

Department of Entrepreneurship

FULL PROFESSOR TENURED

Kolaković, Marko

ASSOCIATE PROFESSOR

Kovač, Ivana, PhD; Mikić, Mihaela, PhD

ASSISTANT PROFESSOR

Turuk, Mladen, PhD

TEACHING & RESEARCH ASSISTANT

Horvatinović, Tin, PhD; Turčić, Ivan, MA

Fifteen years after the Bologna reform and the introduction of Entrepreneurship as an independent discipline, in 2022 the Department of Entrepreneurship was established as the first such Department in an economics faculty in Croatia and the second after the Faculty of Economics in Ljubljana in these areas. The establishment of the Department of Entrepreneurship will enable the further development of the Entrepreneurial Economics discipline in the academic vertical, increasing the quality of the educational program and harmonization with market requirements and strengthening ties with the Croatian economy.

With the aim of learning and improving entrepreneurial knowledge and skills in the past period, from the core course Entrepreneurship at the Faculty, the staff of the Department developed a whole series of new courses such as International entrepreneurship, Entrepreneurship in tourism, Corporate entrepreneurship, Social entrepreneurship, etc. Two specialist postgraduate programs were also launched: "Strategic Entrepreneurship" and "Entrepreneurial Management". In addition, a specialist graduate professional programme has been launched named "Entrepreneurial Economics", and in 2007 the first Student Business Incubator in Croatia was also opened, where additional work is still being done with students who are particularly interested in starting their own entrepreneurial projects still during their studies.

The goal of the Department of Entrepreneurship is ultimately to see our students as successful owners of fast-growing companies, all with the aim of contributing to the development of entrepreneurship, acceleration of economic development and exploitation of an enormous potential, which derives from the most valuable resource that Croatia possesses - and that is knowledge.

TEACHING & RESEARCH ASSISTANT

Babačić, Elio, MA; Cesarec, August, PhD; Vujeva, Karlo, MA

Throughout the history of Faculty of Economics and Business, since 1920, when High School of Trade and Transport was founded, finance studies have had an important place in curricula. In the initial phase of economics studies, finance was taught within ''Principles of Political Economy'' using the textbook of the same title written by Professor Blaž Lorković in 1889.

The existing **Department of Finance** with segments of monetary finance, public and social finance, international finance and financial institutions and markets, banking and insurance, is directed to providing guidance in handling complicated challenges of globalization. In order to achieve this goal, syllabi of the given disciplines are highly compatible with finance study programmes in the EU and USA.

Memory of those members of our department who left their mark on financial theory and Croatia's politics but are no longer with us - Professor Marijan Hanžeković, first finance minister in independent Croatia, Professor emeritus Ivo Perišin, full member of the Croatian Academy Of Sciences And Arts, Professor Antun Šokman, a long-term vice governer of Croatian National Bank, Professor emeritus Pero Jurković, a former governer of Croatian National Bank and professor Anto Bajo who suddenly passed away on Monday, November 25th, 2019. , and was a full professor at the Finance Department and a senior researcher at the Institute of Public Finance in Zagreb, are an inspiration to us all in our teaching and research within the field of finance.

Information and communication technologies nowadays strongly influence the success of a company. Department of informatics aims to educate top experts who utilize information technology to enhance the competitiveness of Croatian companies. The department established a major in Managerial Informatics as a result of significant demand for master's students of business administration with solid knowledge of information and communication technologies. Most of the courses are organized using a project-based principle and utilizing cutting-edge software in the fields such as digital transformation, information security, data management, business process management, data science, artificial intelligence, e-business, and others.

Within the postgraduate study program the Information Management, students are presented with the latest scientific, professional, and practical achievements in the application of information technology when managing companies, non-profit, governmental, and public organizations. Candidates acquire knowledge and skills necessary for managing complex projects and businesses by utilizing contemporary technological tools and management methods.

The department organizes Days of Information Technology, intending to show how information and communication technologies can solve business problems and to present the work of the best students. The topic of this event is different every year.

Besides, the department organize numerous visiting lectures delivered by experts from the most successful Croatian companies – for the students to get a first-hand look at the business application of information and communication technologies in the daily practice of leading Croatian companies.

Department of International Economics

FULL PROFESSOR TENURED

Dabić, Marina, PhD; Bilas, Vlatka, PhD

ASSOCIATE PROFESSOR

Bošnjak, Mile, PhD; Franc, Sanja, PhD; Jošić, Hrvoje, PhD; Novak, Ivan, PhD; Vlajčić, Davor, PhD; Wittine, Zoran, PhD;

SENIOR LECTURER

Bašić, Maja, PhD

The aim of the **Department of International Economics** is to provide education to business and economics majors and to conduct research with the purpose of deeper understanding of contemporary globalisation processes and regional integration, based on theory, analysis and politics of international trade and finance and contemporary forms of international business. We emphasize developmental problems of small open economies in the environment of trade and financial liberalisation and international integration and stimulate analytical and research interest in the field of international economics and business.

The department's primary concern is courses that provide knowledge and skills necessary for the analysis of market tendencies and risk management in international exchange of goods and services; managerial, commercial and other skills necessary for indepedendent work and decision-making on the demanding globalised market.

ASSISTANT PROFESSOR

Nadoveza, Ozana, PhD

TEACHING & RESEARCH ASSISTANT

Rusmir, Filip, MA; Viljevac, Viktor, MA

Department of Macroeconomics and Economic Development is the first, oldest and the largest department among Croatian faculties of economics. Academician Mijo Mirković, founder of the Faculty, is also a founder of this department.

The department carries out study programme in Economics. Contemporary curriculum economics majors – future experts in modelling and analysis of complex economic systems, e.g. analysts and company planners, experts in finance, planners and economic policy experts for specific economic fields and the whole economy, experts in international trade, international finance and diplomacy, public sector experts (education, health care, statistics and high school teachers of economics.)

Study of Macroeconomics is designed for students interested in scientific study of economics, its 5-year programme is significantly different from study programme in Business Administration.

Economic analysis and development studies are designed to meet growing needs of numerous companies and institutions for highly qualified economic development analysts, with the emphasis on the economic development of Croatia. Curriculum for the first two years is identical to Business Administration curriculum, i.e. students choose their major in the third year of studies.

Two fundamental courses of the department – Macroeconomics and Croatian Economy – are obligatory courses for both Business Administration and Economics majors. They provide the students with relevant facts on research results in the field of theory and its application in Croatia's economic development. This department also offers courses 13 other courses and organizes 3 postgraduate studies.

This department conducts research and provides education in broad the fields of Financial analysis and Managerial economics.

The course of Corporate finance is taught in the second year as an obligatory course.

The department also created a graduate study programme in Analysis and Business Planning. The curriculum of the Analysis and Business Planning study programme form interrelated complementary disciplines, which enables a complete insight into the organization and operations of the company, and multidisciplinary vertical links with the previous education process have been established. The study programme provides knowledge for consultants, analysts and planners in the broadest field of business and financial analysis in companies and in the financial industry.

The department offers a postgraduate study programme in Financial Analysis and Controlling.

Mission of the department is not only to help the students understand the economic system as a whole and different segments of the company's financial system, but also to provide them with a solid and diverse basis for management and decision making.

Department of Mathematics

FULL PROFESSOR

Lukač, Zrinka, PhD; Matejaš, Josip, PhD

ASSOCIATE PROFESSOR

Vlah Jerić, Silvija, PhD

ASSISTANT PROFESSOR

Gardijan Kedžo, Margareta, PhD; Kojić, Vedran, PhD; Puljić, Krunoslav, PhD

TEACHING & RESEARCH ASSISTANT

Husadžić, Denis, MSc; Levaj, Marin, PhD; Radošević Ana, MSc; Sertić Marina, MSc

The Department of Mathematics has 10 members. Most of them have degrees in mathematics, others are economists. Therefore, most research conducted by this department involves quantitative methods in economics, operational research, financial mathematics, econometrics. Department members take part in projects of the home faculty and Faculty of Natural Sciences.

This department offers Mathematics course. It is an obligatory course for all first year students. The department also offers courses in Mathematics for Economists, Econometrics, Financial Mathematics, Financial Modelling, Mathematical Economics, Linear Programming, Nonlinear programming, Operational Research, Game theory, Numerical Methods in Economics and, in cooperation with the Department of Statistics, a course in Quantitative Methods for Business Administration.

We also offer a postgraduate specialist study programme in Operational Research which is led by Professor Zrinka Lukač. Within this programme students study quantitative methods in economics, suitable both for mathematicians and economists.

In 2019, the Ljubomir Martić award was established. It is award for best papers and books in the field of quantitative economics. Ljubomir Martić was a Croatian mathematician and economist, a member of the Department of Mathematics.

Department of Organization and Management of Faculty of Economics and Business, University of Zagreb covers all key disciplines of this dynamic field.

Through offered program and courses, students can gain basic knowledge and skills in management and organization. Courses of the department seek to provide answers to questions on how to organize, manage and lead a variety of organizations and their components, to coordinate activities and tasks, focus and guide their employees, manage tasks, ideas, resources and time.

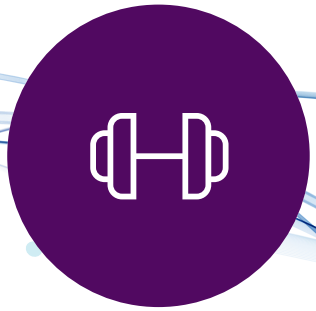
Department of Physical Education

SENIOR LECTURER

Čule, Marko, PhD; Herceg, Romina, MA; Lizačić, Constanza, MSc; Mazinjanin, Predrag, MA; Milinović, Ivan, PhD; Udodovsky, Ines, MA



The history of students' PE dates back a long time, to 1963, with the Department of Physical Education at the Faculty of Economics and Business being established in the 80s. Today, the department counts 6 members, who conceptualize and hold regular PE classes for full-time, as well as part-time students of integrated undergraduate and graduate study programs, undergraduate study programs (both, taught in Croatian and English), and professional undergraduate study programs. Goals of PE classes are improvements in students' anthropological and physiological characteristics, positive influence on the educational component, along with the promotion of sports in general. However, the main task of the department's members, besides motivating students' individual physical exercise is counteracting the process of premature loss of certain properties, abilities and motor functions due to lack of physical activity.

PE is represented in the curriculum as either compulsory or elective courses, held at the faculty's gym and additional locations. Content-wise, students are offered a kinesiological program: fitness, rugby, basketball, volleyball, futsal, badminton, swimming, rowing, hiking, cyclic sports outdoors: bicycling, jogging and ski school.

The department cooperates with the Croatian Institute of Public Health, the Croatian Olympic Committee, the Croatian Kennel Club, the Sports Services/ Office at the University and the Croatian Academic Sports Association.

All sports programs at the faculty fall into the responsibility of the department's members. The Faculty of Economics Sports Association, established in 2007 unites the faculty's students', professors' and employees' physical activity. Students compete in over 20 male and female disciplines at the University's sports Championship. The best gain the possibility to perform nationwide at the Croatian University's sports Championships. Professors and employees of the Faculty participate in recreational activities: fitness, futsal, basketball, volleyball and swimming.

In addition to classes and competitions, members of the Department of Physical Education participate in seminars, scientific conferences and congresses on educational kinesiology. Further they conduct scientific research and publish papers in scientific journals. Research results are presented at conferences in Croatia and abroad.

Statistical methods are fundamental analytical methods for economics and business administration. Statistical data on economic trends, statistical indicators and models provide information that enable the following of economic trends, implementation of economic policies, business decision-making and predicting.

The science of statistics includes theory, methods and their application. Some of the courses are available in English language within Bachelor Degree in Business Programme (BDiB). Department of Statistics also offers the University Specialist Postgraduate Study Programme "Statistical Methods for Economic Analysis and Forecasting".

Curricula of a number of postgraduate programmes include courses in statistics. Computer programmes such as SAS, STATISTICA, Stata, EViews are very important in class and they are available to our students.

Our department members also achieve significant research results. They present their research at conferences in Croatia and abroad and also publish their work in scientific journals.

Department of Tourism

FULL PROFESSOR TENURED

Čavlek, Nevenka, PhD; Prebežac, Darko, PhD

FULL PROFESSOR

Kesar, Oliver, PhD; Mikulić, Josip, PhD

ASSOCIATE PROFESSOR

Bučar, Kristina, PhD; Ferjanić Hodak, Danijela, PhD; Krajinović, Vanja, PhD; Vlahov, Antonio, PhD

ASSISTANT PROFESSOR

Barišić, Petra, PhD; Matečić, Ingeborg, PhD;

The Department of Tourism is a member of UNWTO since 1988 and was the only representative from Croatia (and Central and South East Europe) in this prominent organization for a long time. The Department is among the first educational institutions in the World receiving (2001) the prestigious UNWTO certificate (TedQual certificate), which guaranteed that education and research at the institution was carried out in accordance with the highest quality standards prescribed by the UNWTO. Today, the UNWTO Knowledge Network is a prestigious club of 70 institutions from 41 countries.

Jurčević, Marija, PhD

TEACHING & RESEARCH ASSISTANT

Buntić, Luka, PhD; Sesar, David, MA

Department of Trade and International Business provides students with knowledge necessary for jobs in domestic and international trade, service industry and manufacturing. Courses taught by our department members study entrepreneurship and trade management within Croatian economy, and its activities within international trade. In the 3rd and 4th year, the department offers courses in domestic and international trade, while Master students majoring in Trade learn about contemporary ways of business administration in trade. Some of courses are available in English language within Bachelor Degree in Business Programme (BDiB) and Master level is fully taught both in Croatian and English language.

Postgraduate study programme Quality Management offers courses that deal with quality management in contemporary business environment according to international norms, and postgraduate study programme Trade Management provides students with knowledge and skills necessary for efficient management in corporate trade sectors.

The department also participates in professional degree programme Trade. Students of this programme acquire knowledge and skills necessary for contemporary and practical operative management of commercial and other similar businesses in domestic and international exchange of goods, services, capital and human resources.

A significant number of teachers is involved in postgraduate doctoral studies in Economics and global security (leader Tonći Lazibat, PhD). A part of teachers participates in the postgraduate doctoral studies in Economics and Business Economics

Our department members permanently work on their expertise, do various research projects, cooperate with scientists and institutions in Croatia and abroad, publish books, textbooks and papers in the field of domestic and international trade.

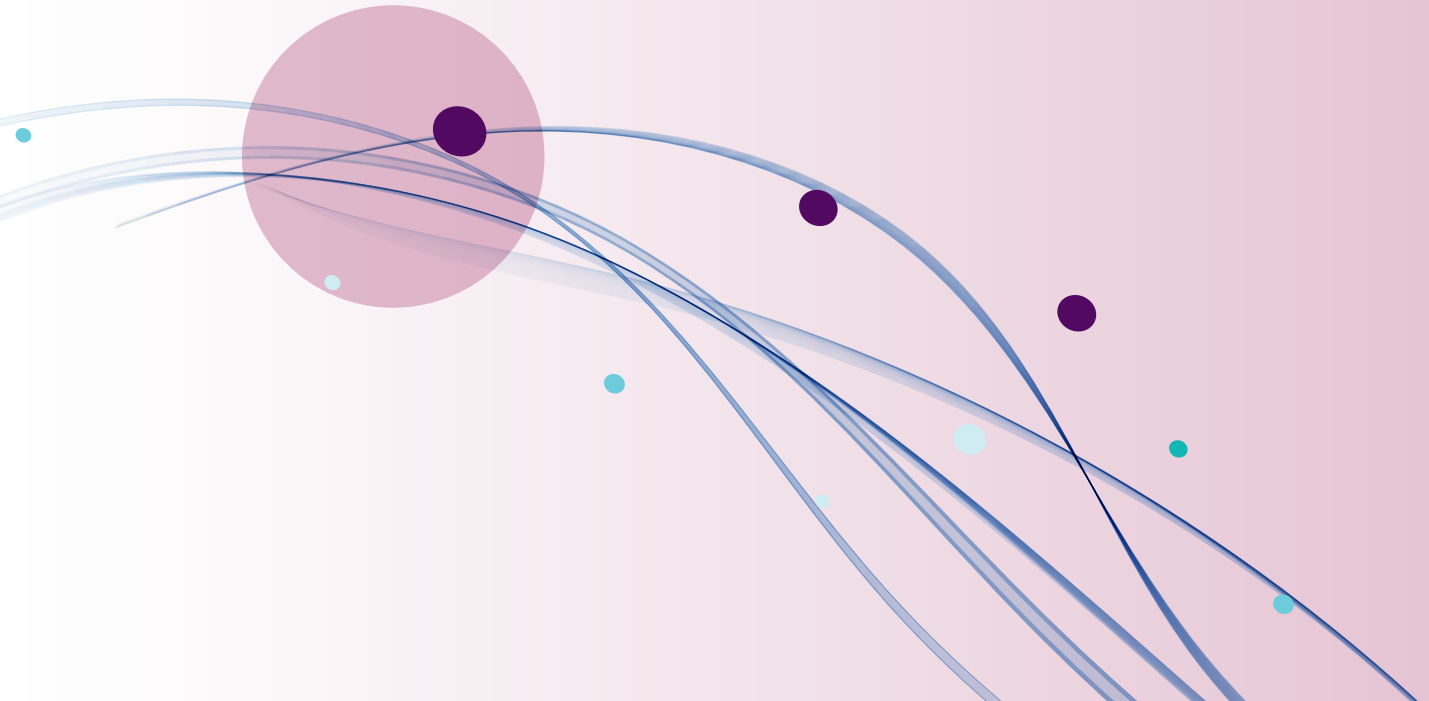
Excellence Awards in Teaching and Research



Barišić, Antea (2022) Acknowledgment for outstanding results in teaching performance in the academic year 2021/2022. (University of Zagreb Faculty of Economics & Business).

Barišić, Petra (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by h-index in databases WoS and Scopus - Category of assistant professors. (University of Zagreb Faculty of Economics & Business).

Bašić, Maja (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by total number of publications in databases WoS and Scopus - Category of Assistants. (University of Zagreb Faculty of Economics & Business).

Cesarec, August (2022) Pero Jurković award in A category - doctoral thesis in economics, field of finance: Cesarec, August (2022) *Odrednice neprihodujućih kreditnih izloženosti i ekonomski učinci na financijsku stabilnost u Europskoj uniji [Determinants of non-performing exposures and economic impact on the financial stability in the European Union].* PhD Thesis. Zagreb: University of Zagreb Faculty of Economics & Business. [Thesis supervisor: Pavković, Anita]. (University of Zagreb Faculty of Economics & Business).

Čipin, Ivan (2022) Mijo Mirković award in B2 category - group-author scientific paper: Smolić, S., Čipin, I., & Međimurec, P. (2022;2021;). Access to healthcare for people aged 50+ in Europe during the COVID-19 outbreak. *European Journal of Ageing*, 19(4), pp. 793-809. DOI: 10.1007/s10433-021-00631-10. (University of Zagreb Faculty of Economics & Business).

Dabić, Marina (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by total number of publications and h-index in databases WoS and Scopus - Category of Full Professors Tenured. (University of Zagreb Faculty of Economics & Business).

Filipović, Davor (2022) Mijo Mirković award in B1 category - group-author scientific book: Podrug, N, Filipović, D. & Kovač, M. (2021) *Transnacionalna korporacija: Strateški i organizacijski aspekti.* Zagreb: Školska knjiga. (University of Zagreb Faculty of Economics & Business).

Fudurić, Morana (2022) Fedor Rocco award in D category - scientific and professional articles of young researchers: Fudurić, M., Varga, A., Horvat, S., & Škare, V. (2022). The ways we perceive: A comparative analysis of manufacturer brands and private labels using implicit and explicit measures. *Journal of Business Research*, 142, pp. 221-241. DOI: 10.1016/j.jbusres.2021.12.033. (University of Zagreb Faculty of Economics & Business).

Gardijan Kedžo, Margareta (2022) Ljubomir Martić award in C category - scientific article in the field of economics, sub-field of quantitative economics, published or available in journals, proceedings or other media of scientific communication: Krpan, M., Pavković, A., & Kedžo, M. G. (2022). Sustainability assessment of pension systems of new EU member states using data envelopment analysis with sensitivity and cross-efficiency analysis. *Ekonomska istraživanja*, 35(1), pp. 6648-6666. DOI: 10.1080/1331677X.2022.2052335. (University of Zagreb Faculty of Economics & Business).

Gardijan Kedžo, Margareta (2022) Pero Jurković award in C category - scientific paper in a field of finance: Gardijan Kedžo, M., & Tuškan Sjauš, B. (2021) The efficiency analysis of large banks using the bootstrap and fuzzy DEA: A case of an emerging market. *Information (Basel)*,12(12), 507. DOI: 10.3390/info12120507. (University of Zagreb Faculty of Economics & Business).

Halar, Petra (2022) The best dissertation in the research areas of accounting, auditing and finances: Halar, Petra (2022) *Prihvaćanje i upotreba informacijsko-komunikacijskih tehnologija kao odrednice uspješnosti interne revizije [Acceptance and use of information and communication technologies as determinants of the internal audit performance]*. PhD Thesis. Zagreb: University of Zagreb Faculty of Economics & Business. [Thesis supervisor: Tušek, Boris]. (Hrvatska zajednica računovođa i financijskih djelatnika [Croatian Association of Accountants and Financial Experts]).

Herceg, Tomislav (2022) Ljubomir Martić recognition for outstanding scientific article - publication in C category: Vrankić, I., Herceg, T., & Pejić Bach, M. (2021). Dynamics and stability of evolutionary optimal strategies in duopoly. *Central European Journal of Operations Research*, 29(3), pp. 1001-1019. DOI: 10.1007/s10100-020-00713-7. (University of Zagreb Faculty of Economics & Business).

Hernaus, Tomislav (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by h-index in databases WoS and Scopus - Category of associate professors. (University of Zagreb Faculty of Economics & Business).

Horvat, Sandra (2022) Fedor Rocco award in D category - scientific and professional articles of young researchers: Fudurić, M., Varga, A., Horvat, S., & Škare, V. (2022). The ways we perceive: A comparative analysis of manufacturer brands and private labels using implicit and explicit measures. *Journal of Business Research*, 142, pp. 221-241.DOI: 10.1016/j.jbusres.2021.12.033. (University of Zagreb Faculty of Economics & Business).

Komarac, Tanja (2022) Acknowledgment for outstanding results in teaching performance in the academic year 2021/2022. (University of Zagreb Faculty of Economics & Business).

Kovač, Matea (2022) Mijo Mirković award in B1 category - group-author scientific book: Podrug, N, Filipović, D. & Kovač, M. (2021) *Transnacionalna korporacija: Strateški i organizacijski aspekti*. Zagreb: Školska knjiga. (University of Zagreb Faculty of Economics & Business).

Krpan, Mira (2022) Ljubomir Martić award in C category - scientific article in the field of economics, sub-field of quantitative economics, published or available in journals, proceedings or other media of scientific communication: Krpan, M., Pavković, A., & Kedžo, M. G. (2022). Sustainability assessment of pension systems of new EU member states using data envelopment analysis with sensitivity and cross-efficiency analysis. *Ekonomska istraživanja*, 35(1), 6648-6666. DOI: 10.1080/1331677X.2022.2052335. (University of Zagreb Faculty of Economics & Business).

Logarušić, Marija (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by total number of publications in databases WoS and Scopus - Category of assistants. (University of Zagreb Faculty of Economics & Business).

Lolić, Ivana (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by total number of publications in databases WoS and Scopus - Category of assistant professors. (University of Zagreb Faculty of Economics & Business).

Lovretin Golubić, Zrinka (2022) Pero Jurković recognition for outstanding research contribution to the field of finance - publication in A1 category: Lovretin Golubić, Zrinka (2022) *Mogućnosti modifikacije jednofaktorskoga modela na hrvatskom tržištu kapitala [Modification possibilities of single-factor model on the Croatian capital market]*. PhD Thesis. Zagreb: University of Zagreb Faculty of Economics & Business. [Thesis supervisor: Dolinar, Denis]. (University of Zagreb Faculty of Economics & Business).

Mandić, Miroslav (2022) Acknowledgment for outstanding results in teaching performance in the academic year 2021/2022. (University of Zagreb Faculty of Economics & Business).

Međimurec, Petra (2022) Mijo Mirković award in B2 category - group-author scientific paper: Smolić, S., Čipin, I., & Međimurec, P. (2022;2021;). Access to healthcare for people aged 50+ in Europe during the COVID-19 outbreak. *European Journal of Ageing*, 19(4), pp. 793-809. DOI: 10.1007/s10433-021-00631-11. (University of Zagreb Faculty of Economics & Business).

Mikulić, Josip (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by total number of publications and h-index in databases WoS and Scopus - Category of Full Professors. (University of Zagreb Faculty of Economics & Business).

Ozretić Došen, Đurđana (2022) Second best paper award at ECMB 2022 conference: Vlahović Mlakar, T. & Ozretić Došen, Đ. (2022) From green perceptions to brand satisfaction – exploring the role of brand experience in the camping sector. In: Zečević, M. (ed.) *Marketing in Emerging Markets in the New Normal.* (ECMB 2022 Conference (Ljubljana, Slovenia, May 2022).

Pavković, Ana (2022) Ljubomir Martić award in C category - scientific article in the field of economics, sub-field of quantitative economics, published or available in journals, proceedings or other media of scientific communication: Krpan, M., Pavković, A., & Kedžo, M. G. (2022). Sustainability assessment of pension systems of new EU member states using data envelopment analysis with sensitivity and cross-efficiency analysis. *Ekonomska istraživanja*, 35(1), pp. 6648-6666. DOI: 10.1080/1331677X.2022.2052335. (University of Zagreb Faculty of Economics & Business).

Pejić Bach, Mirjana (2022) Ljubomir Martić recognition for outstanding scientific article - publication in C category: Vrankić, I., Herceg, T., & Pejić Bach, M. (2021). Dynamics and stability of evolutionary optimal strategies in duopoly. *Central European Journal of Operations Research*, 29(3), pp. 1001-1019. DOI: 10.1007/s10100-020-00713-8. (University of Zagreb Faculty of Economics & Business).

Podrug, Najla (2022) Mijo Mirković award in B1 category - group-author scientific book: Podrug, N, Filipović, D. & Kovač, M. (2021) *Transnacionalna korporacija: Strateški i organizacijski aspekti.* Zagreb: Školska knjiga. (University of Zagreb Faculty of Economics & Business).

Škare, Vatroslav (2022) Fedor Rocco award in D category - scientific and professional articles of younger researchers: Fudurić, M., Varga, A., Horvat, S., & Škare, V. (2022). The ways we perceive: A comparative analysis of manufacturer brands and private labels using implicit and explicit measures. *Journal of Business Research*, 142, pp. 221-241. DOI: 10.1016/j.jbusres.2021.12.033. (University of Zagreb Faculty of Economics & Business).

Smolić, Šime (2022) Mijo Mirković award in B2 category - group-author scientific paper: Smolić, S., Čipin, I., & Međimurec, P. (2022;2021;). Access to healthcare for people aged 50+ in Europe during the COVID-19 outbreak. *European Journal of Ageing*,19(4), pp. 793-809. DOI:10.1007/s10433-021-00631-9. (University of Zagreb Faculty of Economics & Business).

Sorić, Petar (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by total number of publications in databases WoS and Scopus - Category of Associate Professors. (University of Zagreb Faculty of Economics & Business).

Suša Vugec, Dalia (2022) Acknowledgment for outstanding results in teaching performance in the academic year 2021/2022. (University of Zagreb Faculty of Economics & Business).

Suša Vugec, Dalia (2022) Annual award for scientific productivity of the Faculty of Economics in Zagreb, measured by h-index in databases WoS and Scopus - Category of Assistants. (University of Zagreb Faculty of Economics & Business).

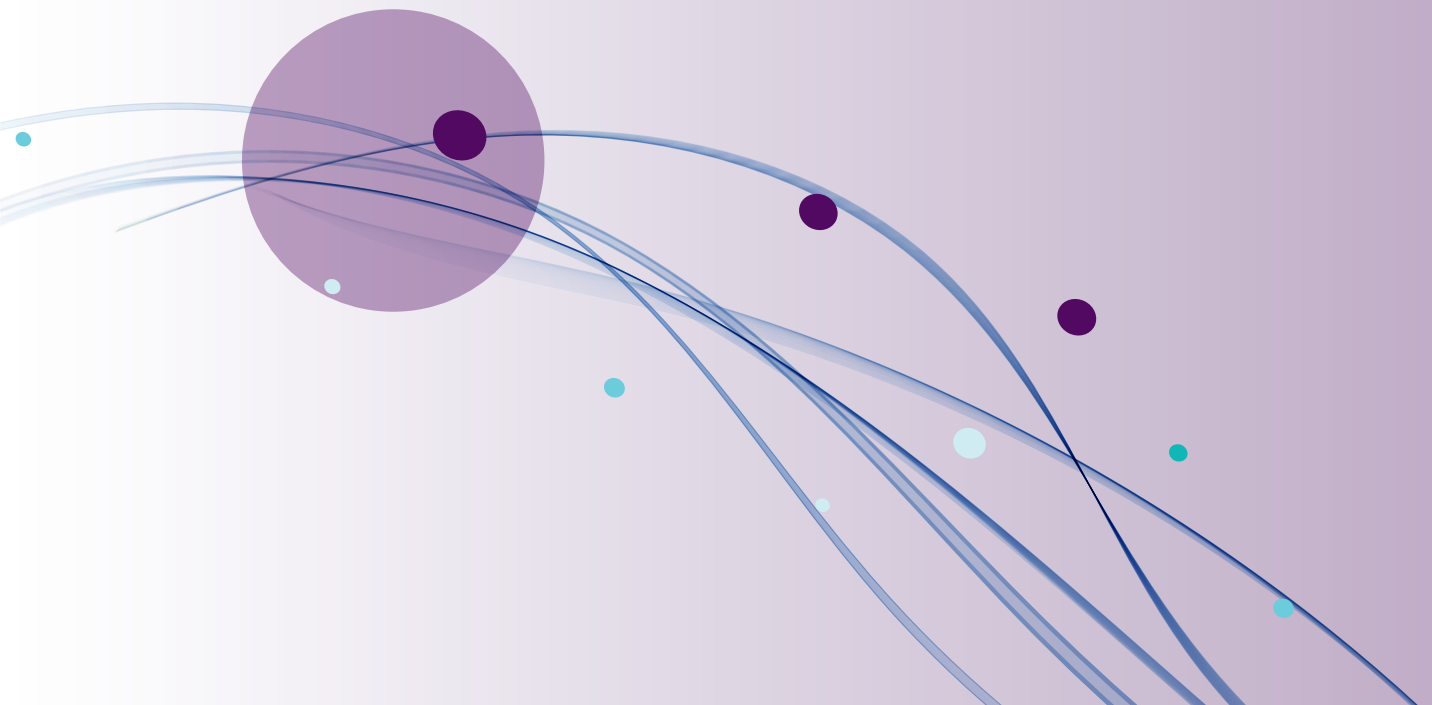
Tuškan Sjauš, Branka (2022) Pero Jurković - scientific paper in a field of finance: Gardijan Kedžo, M., & Tuškan Sjauš, B. (2021). The efficiency analysis of large banks using the bootstrap and fuzzy DEA: A case of an emerging market. *Information (Basel)*, 12(12), 507. DOI: 10.3390/info12120508. (University of Zagreb Faculty of Economics & Business).

Varga, Akos (2022) Fedor Rocco award in D category - scientific and professional articles of younger researchers: Fudurić, M., Varga, A., Horvat, S., & Škare, V. (2022). The ways we perceive: A comparative analysis of manufacturer brands and private labels using implicit and explicit measures. *Journal of Business Research*, 142, pp. 221-241. DOI: 10.1016/j.jbusres.2021.12.033. (University of Zagreb Faculty of Economics & Business).

Vlahović-Mlakar, Tea Silvia (2022) Second best paper award at ECMB 2022 conference: Vlahović Mlakar, T. & Ozretić Došen, Đ. (2022) From green perceptions to brand satisfaction – exploring the role of brand experience in the camping sector. In: Zečević, M. (ed.) *Marketing in Emerging Markets in the New Normal*. (ECMB 2022 Conference, Ljubljana, Slovenia, May 2022).

Dynamics and stability of evolutionary optimal strategies in duopoly. *Central European Journal of Operations Research*, 29(3), pp. 1001-1019. DOI:10.1007/s10100-020-00713-6. (University of Zagreb Faculty of Economics & Business).

Faculty Publishing



FACULTY JOURNALS

Acta Turistica (ISSN 0353-4316; ISSN 1848-6061 (online)) is the first scientific journal published by the Faculty of Economics & Business, University of Zagreb. It dates from 1989 with two issues published annually in Croatian and English. The journal tackles a wide range of scientific and professional topics and discussions in tourism research. Acta Turistica is strategically oriented towards connecting the Croatian and the world tourism research community, its academics, practitioners and students. It is intended to encourage deliberations on the pertinent issues. Its multidisciplinary orientation is evident from the composition of the Editorial Board that consist of renowned scholars, including 13 fellows of the International Academy for the Study of Tourism, covering a variety of research areas, such as economics, management, finance, geography as well as anthropology and sociology. Acta Turistica is indexed in CAB Abstract, CIRET, EBSCO GreenFILE, EBSCO Tourism & Hospitality Complete, EconLit, Hrčak, JSTOR, Loreto Thesaurus, ProQuest ABI/INFORM, ProQuest East & Central Europe Database, ProQuest Entrepreneurship Database, ProQuest Social Science Premium Collection, Scopus and WoS CC ESCI. The journal provides open access to its content based on the principle that making research results freely available to the public supports greater global exchange of knowledge. All information is accessible at www.efzg.unizg.hr/actaturistica.

Market-Tržište (ISSN 0353-4790) is a scientific journal for marketing theory and practice, and the official journal of the University of Zagreb's Faculty of Economics & Business, Marketing Department and CROMAR (Croatian Marketing Association). Twice a year since 1989, the journal has been publishing scientific papers from all areas of marketing, especially those focused on emerging markets as well as the interdisciplinary papers that involve marketing. The journal's mission is to be the leading scientific marketing journal in Central and Eastern Europe. As a result of the strategic approach, that has included the prestigious members of the marketing scientific community in the editorial board as well as the authors and reviewers from more than 60 countries from six continents, Market-Tržište has been included for abstracting / indexing in Scopus, WOS Emerging Sources Citation Index, EconLit, Pro-Quest ABI/INFORM, EBSCO Publishing - Business Source Complete, Central and Eastern European Online Library - CEEOL, DOAJ, RePEc, Index Copernicus International, Cabell's International, Central European Journal of Social Sciences and Humanities - CEJSH, CiteFactor, European Reference Index for the Humanities and Social Sciences - ERIH PLUS and Portal of scientific journals of Croatia "Hrčak". Market-Tržište is available in open access and all information can be found at www.efzg.unizg.hr/market.

InterEULawEast – Journal for International and European Law, Economics and Market Integrations (ISSN 1849-3734) is a scientific journal that publishes papers on legal and economic aspects of the European Union and other market integrations, market freedoms and restrictions, market competition and intellectual property rights, company law and corporate management, international trade and international private and public law. It was founded in 2014 as a result of a Tempus project entitled European and International Law Master Programme Development in Eastern Europe, and comes out twice a year in print and electronic formats. The journal is indexed in Scopus, EBSCO Business Source Corporate, EBSCO Business Source Complete, HeinOnline and Hrčak - Portal of scientific journals in Croatia. In December 2018, 2020 and 2022 the special issues dedicated to International Conferencs European Company Law & Corporate Governance were published.

Poslovna izvrsnost - Business Excellence (ISSN 1846-3355) is a scientific journal founded in 2007 and published twice a year by the Department of Trade and International Business of the Faculty of Economics, University of Zagreb. The journal is oriented toward academics and practitioners dealing with quality and broader economic topics united under the title of business excellence. The journal welcomes papers that contribute to theoretical, methodological and empirical knowledge in complex areas of macroeconomics, microeconomics, international economics, finance, accounting, business informatics, management, marketing, trade and tourism. Papers can be based on quantitative and qualitative analyses, may synthesize and review previous scientific researches and indicate open research questions in the specific areas of social and economic practice. The journal is primarily oriented on the region of Central and Eastern Europe (CEE), which due to its dynamic economic development stands as a fertile ground for diversiform scientific research. The journal "Poslovna izvrsnost - Business Excellence" is indexed in the following databases: EconLit, ProQuest ABI / Inform, ProQuest Social Science Premium Collection, CAB Abstracts, Directory of Open Access Journals (DOAJ), RePEc and Hrčak - Portal of scientific journals in Croatia. Recently, the journal went through a series of changes in order to comply with its regional focus and broad economic and business scope. The changes are reflected through transition to English language as a primary language and diversified geographical distribution of authors and editors.

Zagreb International Review of Economics and Business (ISSN 1331-5609) is a scientific journal covering a wide range of macroeconomics, microeconomics, management, marketing and tourism topics. It features theoretical and empirical research in the areas of economics and business, as well as other current relevant economics- related research. Since 1998 it has come out twice a year, but every other year it also publishes a Special Conference Issue consisting of the selected papers that were featured at FEBs international conference Enterprise Odyssey. In its December 2018 Issue ZIREB published Special Conference Issue with the selected papers presented at 9th International Conference "An Enterprise Odyssey: Managing Change to Achieve Quality Development". ZIREB is especially proud on being the first FEB's journal which entered Emerging Sources Citation Index (database within Clarivate Analytics' Web of Science). Today ZIREB is referred in many databases such as EconLit, EBSCO, ProQuest, RePEc, CEJSH, CNPIEC etc. According to IDEAS/RePEc Aggregate Rankings for Journals it is the best ranked FEB journal.

Zbornik Ekonomskog fakulteta u Zagrebu / Proceedings of Faculty of Economics and Business (ISSN 1333-8900) in Zagreb is scholarly journal that covers a wide range of social topics in the field of economics. It publishes scientific and professional papers, book reviews and other economics and business research outputs on Croatian and English language. The first issue was published in 2003 and from 2009 it has regular frequency of two issues per year. The journal is indexed in following databases: EconLit, ProQuest ABI/INFORM Collection, ProQuest Social Science Premium Collection and Hrčak – Portal of Scientific Journals of Croatia.
