### Career overview

*Krešimir Ivanda was born in 1989 in Split. He completed high school in Split in 2007, after which he enrolled at the Faculty of Economics in Zagreb. He earned his bachelor's degree in economics in 2012 and his master's degree in 2013 at the same institution. Since October 2014, he has been employed as an assistant at the Department of Demography at the Faculty of Economics in Zagreb, and since October 2020, as a postdoctoral fellow. In 2024, he will take on the role of assistant professor. He defended his doctoral dissertation at the same faculty in May 2020, under the supervision of Prof. Dr. Sc. Anđelko Akrap.*

*At the department, he is involved in teaching several courses in both university and professional studies. In addition to teaching, he actively participates in research work and project activities. His research focuses on economic demography, migrations, projections, and computational methods in demography. He has participated in numerous domestic and international scientific and professional conferences and is the author and co-author of several academic and professional papers. Additionally, he has been involved in several research projects. He studied at the Center d'Estudis Demogràfics at the Universitat Autònoma de Barcelona and the Central European Labor Studies Institute.*

### Research areas

*Keywords: Migration, labour market, economic demography, wages, demographic projections*

### External activity

Researcher on several academic projects, including Sociodemographic Determinants of Energy Consumption in Croatia (ENERGODEM), Data Infrastructure for Advanced Demographic Research, and Demographic Data for Better Estimates and Policies. He also leads a project segment on the academic project Population Trends and Changes in the Economic and Social Structure of the Population of the City of Zagreb, based on consumer cards from 1939 to 1947. External expert on the ESF project SENIOR2030. Member of the IUSSP. Additionally, he is a member of various working groups for the Government of Croatia, focusing on topics such as demography and the pension system.
