

Dear students,

We hope that you are all in good health and that you have managed to find a way to participate in the educational process. These are challenging and, to say the least, unusual times in which forms of communication and work method differ from the usual ones. By all accounts, it seems obvious that the classes will not be held in this semester. For this reason, we have resorted to finding a solution in the form of publishing the study materials related to the course in Google classroom. Furthermore, in order to fulfil your obligations towards the course in Physical Education and accordingly, acquire the right for the signature, you are required to do as follows:

**1. Provide a term paper which will be assigned to you by your course instructor**

The paper should contain:

- Suggested length of five (5) pages
- Title page (title, name of the author, name of the teacher, attended semester and class hours (e.g. Tuesday,8-10)
- Structure of the paper: *title page, table of contents, introduction, elaboration of the topic, conclusion, reference list (in the paper all used sources should be cited (books, book chapters, articles from magazines or collected papers, Internet source))*
- Writing font is Times New Roman, font size is 12, line spacing 1,5
- Source of images or tables used, if they are featured in the paper

The procedure is as following: You are obliged to contact by e- mail your course instructor (if there are two class instructors, one should be titled in the copy of the mail), after which you will be provided with the paper topic. When you have finished your work, it should be submitted to the course instructor in the same way. After the instructor examines your term paper, *within the maximum of five days*, you will be provided with the feedback. In that way you will regulate your obligations towards the course.

Term papers can be sent from 14./04.2020.

**2. Join PE Google Classroom**

Classroom is accessible to all students who should sign in using the e-mail address assigned to them by the Faculty of Economics and Business (@net.efzg.hr). After you connect through

the link below and sign in as students, you should fill in the class code **kmrst5** or **427ypth**

Subsequently, PE classroom will appear where training and exercise programs will be published which can be performed indoors, along with other materials related to the course. We hope you will join in and exercise regularly in order to keep and improve your psychophysical abilities.

**or**

Link: <https://classroom.google.com/c/NTQ5NjIxNjg1NzVa> **427ypth**

*All students (exempt from the classes due to medical conditions, athletes who haven't participated in the University championship this academic year and part-time students who are employed) have the same obligations for the summer semester of the academic year 2019/2020.*

**Only the students who have fulfilled the above stated requirements as well as the students who had previously obtained the signature for a particular semester can apply for the exam in the upcoming test dates.**
